

## Universität Basel

### Masterstudium: Sustainable Development

The aim of the MSD study program:

Our students gain advanced knowledge about scientific aspects of Sustainable Development in consideration of the ecological responsibility, the societal solidarity and the economic performance. They are taught to become competent and interdisciplinary working decision-makers in science, politics, economics, and society. Our graduates are able to consider, manage and implement complex sustainability issues.

Academic degree:

Master of Science in Sustainable Development

Structure:

The MSD study program contains 120 credit points, which are acquired over four semesters in the case of a full time study. For a part time study, the duration will extend accordingly. The MSD offers three focus areas: in natural sciences, in social sciences, and in economics; each containing six determined modules; and a master's thesis.

For detailed information regarding modules etc. we recommend to have a closer look at the study regulations (in German); the guidelines, the medium-term syllabus and the optimal study progression plan (all available in English). These documents and a graphic representation of the three focus areas can be downloaded from our website: <https://www.msd.unibas.ch>.

Head of the MSD:

The study program is jointly run by the Faculty of Sciences, the Faculty of Humanities and Social Sciences and the Faculty of Economics.

From August 2022 to July 2024, the teaching committee (TC) is chaired by Prof. Dr. Frank Krysiak, head of Environmental Economics, Faculty of Economics.

Head of the coordination office MSD is Camelia Chebbi, for contact details see below (section academic advice = Studienfachberatung).

Further information:

The guidelines and the study regulations inform about admission criteria, the registration process and the curriculum.

The detailed course directory (dcd) informs regarding teaching program of the current semester. Further information are provided by the medium-term syllabus (mittelfristiger Lehrplan). For the preparation of the timetable all these documents have to be considered.

All documents are available as downloads: <https://www.msd.unibas.ch/en/services/downloads/msd-2017/>

Studienfachberatung:

For academic advice and information & study consultation:

Camelia Chebbi, MA/MAS ETHZ/MAS NPPM FHNW,  
head coordination office MSD

For detailed information regarding availability of office and staff see: <https://msd.unibas.ch/en/organization/coordination-office/>

Individual study consultation by appointment.

coordination-msd@unibas.ch; +41 61 207 04 20.

### Modul: Komplementärer Basisbereich Naturwissenschaften

20721-01	Vorlesung mit Übungen: Ecosystems - Concepts, Principles and Processes	3 KP
<b>Dozierende</b>	<b>Gabriel Erni Cassola</b>	
<b>Zeit und Ort</b>	Di 10:15-12:00 Vesalianum, Seminarraum (O2.02) Do 08:15-10:00 Vesalianum, Seminarraum (O2.02) Lectures on Tuesday, 10:15 - 12 am. Practical course on Thursday: 08.15- 10 am. Groups meet fortnightly. Exam on Thur 14.12.23, during usual teaching time. Room tba.	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften	
<b>Module</b>	Modul: Komplementärer Basisbereich Naturwissenschaften (Masterstudium: Sustainable Development)	
<b>Lernziele</b>	Lecture - Students know the components of ecosystems; - they know how these components are interacting and influencing each other; - they can mediate and argument this knowledge with specific vocabulary.  Practical course - Students are familiar with the primary literature in natural sciences; - they acquire familiarity with the structure of articles in natural sciences; - they develop strategies to efficiently and correctly analyze the content of such articles;	

- they critically analyze the statement of a text, based on the presented data;
- they can interpret the provided data autonomously.

#### **Inhalt**

The principal characteristics and components of ecosystems will be introduced. Through slides (presentations) and textbooks such principles, important processes and interactions between organisms and the abiotic environment will be discussed.

#### **Practical course**

Based on scientific literature, relevant topics will be critically analyzed and discussed. The critical reading and analysis of primary literature will be exercised with a focus on understanding the content of scientific articles, as well as on discussing and questioning the authors' statements, using the presented data. Topically, these sessions will be aligned with the content of the main lecture.

#### **Literatur**

tba in class.

#### **Leistungsüberprüfung**

Leistungsnachweis

#### **Skala**

1-6 0,1

#### **Wiederholungsprüfung**

eine Wiederholung, bester Versuch zählt

#### **An-/Abmeldung zur Prüfung**

Anm.: Belegen Lehrveranstaltung; Abm.: stornieren

#### **Hinweise zur Leistungsüberprüfung**

Compulsory attendance in presence, readings and homeworks according to information of lecturers.

#### **Lecture:**

Final written examination, details according to information of G. Erni Cassola: on Thursday, 14. December 2023/90 minutes, during usual lecture time. For details regarding room see online course directory/section "dates and rooms".

Repeat examination tba directly to students (only to those who have to redo it); seminar room 02.02, Vesalianum, Vesalgarasse 1/2nd floor.

For the admission to the written examination is conditional, proof of achievement for the practical course.

To receive proof of achievement for the practical course, students are required to read the provided literature and participate actively during the discussions. In consultation with the tutor, each participant will choose and present a scientific article and lead the discussion on the content. "Presenting" does NOT mean a classical presentation (e.g., Powerpoint), but to summarize the main findings and prepare the basis for an interactive discussion. Details and support on the preparation will be given during the lecture/practical course.

#### **Belegen bei Nichtbestehen**

beliebig wiederholbar

#### **Einsatz digitaler Medien**

kein spezifischer Einsatz

#### **Unterrichtssprache**

Englisch

#### **Teilnahmevoraussetzungen**

Limited number of participants (25). Students of the MSD have a first priority.

If you study something different you must do at least a master's degree within the Departement of Environmental Sciences (Faculty of Sciences) and may attend the course in case of vacancies (= second priority). No other students admitted.

#### **Anmeldung zur Lehrveranstaltung**

Course enrollment on MOnA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).

#### **Bemerkungen**

Mandatory lecture for students of the MSD with focus areas in social sciences and in economics.

Students of the MSD with focus areas in natural sciences may enrol if they have not already taken a comparable course. CP have to be accredited via learning agreement (template available on the website MSD/downloads MSD 2017) for the FASR module.

#### **Teaching takes place:**

- lecture: on Tuesdays, for details see "dates and rooms".
- practical course: Thursdays. First meeting on 21. September 2023 with all participants.

During the semester students meet in groups fortnightly. Details of group building and meeting dates will be provided during the first class.

The lecture is offered by the MSD. Dr. Gabriel Erni Cassola is a post doc staff member of Man-Society-Environment (MSE = MGU Mensch-Gesellschaft-Umwelt).

41828-01	Vorlesung mit Übungen: Perspectives of Natural Sciences on Sustainability	3 KP
<b>Dozierende</b>	<b>Patricia Holm</b>	
<b>Zeit und Ort</b>	Di 14:15-16:00 Kollegienhaus, Hörsaal 115 Kick-off: Tue 19. Sept. 23: 14.15- 17.30h. Lecture hall: AULA, 033, Kollegienhaus. Exam: 19. Dec. 23, during usual lecture time. Room tba.	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften	
<b>Module</b>	Grundkurse (Transfakultäre Querschnittsprogramme im freien Kreditpunkte-Bereich) Modul: Electives in Data Science (Masterstudium: Data Science) Modul: Komplementärer Basisbereich Naturwissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies)	
<b>Lernziele</b>	The students - know current challenges of Sustainable Development (SD) and are able to present them from a natural science perspective; - have a basic understanding of how different perspectives shape the idea of SD; - know which issues different natural sciences disciplines raise and know their expected contribution to the analysis of SD; - can formulate reasonable expectations towards different disciplines of natural sciences.  Students are expected to - understand basic scientific methods in natural sciences; - have fundamental knowledge in natural sciences, which allow a critical appraisal of environmental issues and SD; - are aware of interrelations within the environment and between human and nature; - practice goal-oriented group work.	
<b>Inhalt</b>	The course is offered within the scope of the program "Pathways to Sustainability" (formerly known as "Transfaculty Cross Section Program Sustainable Development/Transfakultäres Querschnittsprogramm TQNE": <a href="https://msd.unibas.ch/en/study-programs/pathways-to-sustainability-tqne/">https://msd.unibas.ch/en/study-programs/pathways-to-sustainability-tqne/</a> ). The program consists of 3 introductory lectures with practical courses (lecture A and B are offered in fall semesters, C is offered in spring semesters) dedicated to conveying the foundations of sustainable development. An additional integration seminar (D, offered in spring semesters) engages with interdisciplinary work. The assignment and completion of D requires the successful completion of two lectures from the above mentioned lectures A, B and C.  The topic "Food and Sustainability" serves as an integration focus for the entire program and, thus, also for this lecture. The course includes a lecture and topic-specific practical course. While the lecture deals with systematic overview knowledge, the practical course focus' on empirical case studies.	
<b>Literatur</b>	Will be provided in class.	
<b>Leistungsüberprüfung</b>	Leistungsnachweis	
<b>Skala</b>	1-6 0,1	
<b>Wiederholungsprüfung</b>	eine Wiederholung, bester Versuch zählt	
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren	
<b>Hinweise zur Leistungsüberprüfung</b>	Compulsory attendance in presence of lecture and practical course, submission of learning portfolio according to the announced requirements.  Final written examination (details according to information of P. Holm): 19. Dec. 23, during usual lecture time, Exam lasts 60 minutes. For details regarding room see online course directory/section "room and dates".	

Repetition examination: 16. Jan. 24, during usual lecture time. Exam lasts 60 minutes, room: seminar room 02.02, Vesalianum, Vesalgasse 1/2nd floor.

Practical courses:

Each student has to submit a learning portfolio according to the announced requirements. The group meetings are organized at the beginning of the semester and will take place later in the semester.

**Belegen bei Nichtbestehen**  
**Einsatz digitaler Medien**  
**Unterrichtssprache**  
**Teilnahmevoraussetzungen**

beliebig wiederholbar  
kein spezifischer Einsatz  
Englisch

This course is open to students of the University of Basel and EUCOR sustainability program who are at least in their third bachelor semester, or who are studying at Master or PhD level.

MSD 2017

Students who have already attended a similar class are supposed to contact Prof. Dr. P. Holm and determine with her a substitute; they also have to fix a learning agreement (template available on the website MSD/downloads MSD 2017).

Students with a first degree in natural sciences are not allowed to accredit this lecture for the MSD (no module allocation possible).

**Anmeldung zur Lehrveranstaltung**

Course enrollment on MOnA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).

**Bemerkungen**

The kick-off event is organized together with lecture B (41829) on Tuesday, 19.09.23 from 14.15 to 17.30h: lecture room according to announcement in the course directory (see section "dates & rooms").

Extra certificate

Upon completion of the entire program "Pathways to Sustainability" and the enrolled degree program at the University of Basel students may order an additional certificate. For this purpose students send an email to [coordination-msd@unibas.ch](mailto:coordination-msd@unibas.ch), attach their official final degree transcript (= graduation transcript = Zeugnis) and provide the postal address.

This course is offered by the programs "Pathways to Sustainability" and MSD. Prof. Dr. Patricia Holm is member of the teaching committee MSD and head of the research group Man-Society-Environment (MSD= MGU), Dep. Environmental Sciences, Faculty of Sciences, and of "Pathways to Sustainability".

#### Modul: Komplementärer Basisbereich Gesellschaftswissenschaften

14253-01	Seminar: Environmental Ethics and Intergenerational Justice	3 KP
<b>Dozierende</b>	<b>Barbara Schmitz</b>	
<b>Zeit und Ort</b>	Di 12:15-14:00 Rosshofgasse (Schnitz), Seminarraum S 01 Final session (discussion of essays): January 24, date tba (will be online).	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Fachbereich Nachhaltigkeitsforschung	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Komplementärer Basisbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Praktische Philosophie (MSF - Philosophie) Modul: Fields: Environment and Development (MSG - African Studies)	
<b>Lernziele</b>	The participants know - different approaches in environmental ethics; - the specific problems of intergenerational justice.	
<b>Inhalt</b>	The central questions of environmental ethics concern the moral obligations we have towards protecting our natural environment. How can these obligations be rationally justified? What do they include? Physiocentric approaches suppose that the value of protecting our environment is not just based on human interests. In contrast, anthropocentric	

	<p>approaches completely explain the obligation to conserve the nonhuman nature by reference to the interests of human beings who for example have a need for an undestroyed environment as an economical resource or as an area for their relaxation. These different approaches will be discussed in the first part of the course.</p> <p>Sustainable development is aiming at the protection of the economical and ecological conditions of the good life of future generations. By serving this goal environmental ethics becomes part of an ethics concerning our responsibility for the future. In the second part of the course different readings of this responsibility will be discussed. In this context, it will also be examined in which way our obligation to protect our environment can be justified by the idea of justice between present and future generations.</p>
<b>Literatur</b>	The literature is presented in class.

<b>Hinweise zur Leistungsüberprüfung</b>	Compulsory attendance in presence, required readings, oral presentation, essay. Details according to information of B. Schmitz. Final session (discussion of essays): January 24, date tba in class.
<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar
<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz
<b>Unterrichtssprache</b>	Englisch
<b>Teilnahmevoraussetzungen</b>	Special course application required for ALL (for details see section 'course application' or 'Anmeldung').
	<p>Limited number of participants (25). Students of the MSD (incl. preparation semester and IJSD) have a first priority.</p> <p>Students of the listed programs (see list of modules) have a second priority.</p> <p>If you study something different you must do at least a master's degree within the Department of Social Sciences (Faculty of Humanities and Social Sciences) and may attend the seminar in case of vacancies (these applications have the priority level three). No other students admitted.</p> <p>Content related participation REQUIREMENTS for NON-MSD/IJSD-students: They must have passed successfully one of the following lectures (= credit points already acquired) during a former semester:</p> <ul style="list-style-type: none"><li>- 11513: Sustainability: A new Societal Paradigm?</li><li>- 41829: Perspectives of Social Sciences on Sustainability.</li></ul>
<b>Anmeldung zur Lehrveranstaltung</b>	<p>Please note entry requirements. For details see section "admission requirements".</p> <p>Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/ midnight: <a href="https://adam.unibas.ch/goto_adam_crs_544052.html">https://adam.unibas.ch/goto_adam_crs_544052.html</a></p> <p>Login and application only possible with open link. Link guides to the ADAM website, you still have to do the login.</p> <p>First emails with confirmation of participation will be sent out at the end of the first deadline. In case of vacancies the online application link remains open until 27. September 23/ midnight.</p> <p>Course enrollment on MoNA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).</p>
<b>Bemerkungen</b>	<p>Note: Special course application and entry requirements!</p> <p>Mandatory for all students of the MSD unless the following situation applies to you: Those who have already attended a similar class are supposed to contact PD Dr. Basil Bornemann and determine with him a substitute and inform C. Chebbi by email. A learning agreement is to be filled in if the substitute concerns the 'Complementary Knowledge in Social Science' module (template on website/downloads MSD 2017).</p> <p>This seminar is offered by the MSD, Dr. B. Schmitz holds a teaching assignment.</p>

41829-01	Vorlesung mit Übungen: Perspectives of Social Sciences on Sustainability	3 KP
<b>Dozierende</b>	<b>Basil Bornemann</b>	
<b>Zeit und Ort</b>	Di 16:15-18:00 Kollegienhaus, Hörsaal 115 Kick-off: Tue 19. Sept. 23: 14.15- 17.30h. Lecture hall: AULA, 033, Kollegienhaus. Exam: 09. Jan. 24, during usual lecture time. Room tba.	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften	
<b>Module</b>	Grundkurse (Transfakultäre Querschnittsprogramme im freien Kreditpunkte-Bereich) Modul: Electives in Data Science (Masterstudium: Data Science) Modul: Komplementärer Basisbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Vertiefung Landschaft und Umwelt (BSF - Geographie) Modul: Vertiefung Politikwissenschaft M.A. (MSF - Politikwissenschaft) Modul: Fields: Environment and Development (MSG - African Studies) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	The lecture aims at the acquisition of the following competences: - Professional competences: Students are familiar with selected social science perspectives (concepts, approaches and theories) relevant to the analysis of the link between sustainability and food. In addition, they have exemplary empirical knowledge on selected sustainability problems in the subject area of food and sustainability. - Methodological competences: Students are able to develop and apply strategies and techniques for the research and structuring of information. They are also able to apply specific social science perspectives to the analysis of a sustainability problem and to reflect the knowledge gained thereby. - Social and self-competences: Students can organize group work and organize and carry out results-oriented activities. They can argue their own positions in a small group and in front of a larger audience, defend against objections and reflect on the basis of critical objections by others.	
<b>Inhalt</b>	The course is offered within the scope of the program "Pathways to Sustainability" (formerly known as "Transfaculty Cross Section Program Sustainable Development/Transfakultäres Querschnittsprogramm TQNE": <a href="https://msd.unibas.ch/en/study-programs/pathways-to-sustainability-tqne/">https://msd.unibas.ch/en/study-programs/pathways-to-sustainability-tqne/</a> ). The program consists of 3 introductory lectures with practical courses (lecture A and B are offered in fall semesters, C is offered in spring semesters) dedicated to conveying the foundations of sustainable development. An additional integration seminar (D, offered in spring semesters) engages with interdisciplinary work. The assignment and completion of D requires the successful completion of two lectures from the above mentioned lectures A, B and C.  This lecture with practical courses (lecture B) deals with the analysis of sustainability problems and problem solving from different social science perspectives. It seeks to clarify the prerequisites and conditions, as well as the possibilities and limits of dealing with sustainability problems and fostering societal transformations toward sustainability. Food as an integration focus for the entire program is analyzed as a social, cultural and political phenomenon in relation to sustainable development: What can social sciences contribute to a differentiated understanding of food-related sustainability problems and their solutions? (e.g., land use and conflicts, common property resources; food production, food consumption and waste; food distribution and security; food governance and governing a sustainable food system etc.).  The class includes a weekly lecture and topic-specific practical courses: The lecture deals with systematic overview knowledge and a set of specific social science concepts, approaches and theories. The practical courses focus on empirical case studies and involves active student participation.

**Modul: Komplementärer Basisbereich Wirtschaftswissenschaften**

48981-01	Vorlesung: Intensive Introduction to Intermediate Economics	6 KP
<b>Dozierende</b>	<b>Dragan Ilic</b>	
<b>Zeit und Ort</b>	Do 12:15-14:00 Kollegienhaus, Hörsaal 119 Fr 12:15-14:00 Kollegienhaus, Seminarraum 212	
<b>Datum</b>	21.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Modul: Komplementärer Basisbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Methoden der Wirtschaftswissenschaften (Masterstudium: European Global Studies)	

<b>Lernziele</b>	The course aims to provide students with no economic background with the required foundation in economic analysis and theory for tackling more advanced economic courses. After completing the course, students should be able to think critically about methodological and economic issues. Students should be able to explain and interpret economic phenomena with the language and approach of economic reasoning.
<b>Inhalt</b>	This course introduces the basic building blocks of modern economic analysis. Aimed for non-economists, it is a crash course in economic thinking. In the first, shorter part of the course we delve into basic economic concepts such as the modeling the market forces of supply and demand, thinking at the margin, efficiency, comparative advantage in trade, externalities, public goods, and measuring GDP. The second, more mathematical part of the course revolves around microeconomic theory. We will study how consumers and producers, interacting through markets, determine the prices and output of goods and the allocation of productive resources. Consumers and producers are formally modeled as agents with well-defined objectives who make optimal choices in an environment of economic constraints such as income and costs. The price mechanism signals information to consumers and producers alike, coordinating their behavior. This course will contain both lectures and exercise sessions. Course material will be provided through the ADAM webspace.
<b>Literatur</b>	Two textbooks provide the foundation for this class: Tyler Cowen and Alex Tabarrok, "Modern Principles of Economics," Third Edition (Worth Publishers, 2016) Jeffrey M. Perloff, "Microeconomics with Calculus," Third (Global) Edition (Pearson Education, 2013)  For laypersons, these two books provide an excellent and easy to read introduction into economic thinking and the value of economic modeling: Tim Harford, "The Undercover Economist," (Little, Brown and Company, 2005; various reprints) Dani Rodrik, "Economics Rules," (W.W. Norton & Company, 2016) <a href="https://adam.unibas.ch/goto_adam_crs_933437.html">https://adam.unibas.ch/goto_adam_crs_933437.html</a>

<b>Bemerkungen</b>	This core lecture is mandatory for every MSD student.  The lecture is offered by the MSD. Prof. Dr. Patricia Holm and Prof. Dr. Frank Krysiak (lead of this lecture) are members of the MSD teaching committee; Prof. Dr. em. Paul Burger is a former member.

48954-01	Kernvorlesung: Tools and Methods for Interdisciplinary Research	3 KP
<b>Dozierende</b>	Marius Christen	
<b>Zeit und Ort</b>	Do 10:15-12:00 Rosshofgasse (Schnitz), Seminarraum S 02 Exam: 21. Dec. 23: during usual lecture time. room tba.	
<b>Datum</b>	21.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften	
<b>Module</b>	Modul: Interdisziplinäre Forschung zu Nachhaltigkeit (Masterstudium: Sustainable Development)	
<b>Lernziele</b>	Students will: <ul style="list-style-type: none"><li>- get acquainted with the rational, forms, challenges as well as requirements of inter- and transdisciplinarity;</li></ul>	

- get to know different methods and approaches of interdisciplinary research;
- be able to understand and basically apply relevant tools of interdisciplinary research in sustainability sciences, such as system analysis and sustainability assessment.

<b>Inhalt</b>	Inter- and transdisciplinary collaboration are essential prerequisites to scientifically analyse and effectively tackle complex real-world problems, such as sustainability challenges. However, what is meant by inter- and transdisciplinarity, and how and by which approaches interdisciplinary research is conducted? In the first (theoretical) part, the lecture introduces different forms, methods, challenges as well as requirements of interdisciplinarity (and transdisciplinarity), with a specific focus on questions of interdisciplinary research in sustainability sciences. In the second (practical) part, we discuss two established tools of interdisciplinary research in sustainability sciences: system analysis and sustainability assessment. Guest lectures will share their personal experiences with interdisciplinary collaboration in science. In the third (reflexive) part, we round up the lecture by a critical reflection upon contributions of science to the transformation towards sustainable development. The lecture requires active participation as part of small practical exercises.
<b>Literatur</b>	Recommended introductory reading: Bergmann, M. et al. (2012): Methods for transdisciplinary research. A primer for practice, Frankfurt a.M: Campus.

Only for students enrolled regularly in the MSD/2nd semester onwards, limited number of participants (19)! No other students admitted.

Specific participation requirements:

- Mandatory course application (for link see section course application = Anmeldung);
- students from 2nd MSD semester onwards;
- 12 CP in total must be already achieved (incl. spring semester 23) in the two complementary knowledge modules (of the chosen focus area).

**Anmeldung zur Lehrveranstaltung**

Please note entry requirements. For details see section "admission requirements".

Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)

Login and application only possible with open link. Link guides to the ADAM website, you still have to do the login.

First emails with confirmation of participation will be sent out at the end of the first deadline. In case of vacancies the online application link remains open until 22. September 23/  
midnight.

Course enrollment on MOnA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).

**Bemerkungen**

This class is published for the three core competences modules. However, the teaching committee strongly advise the transfer of these credit points to the FASR module (via learning agreement; template available on the website MSD/downloads MSD 2017).

Schedule:

- 22. September 2023: 14.15 - 17.00h; at Unibas (room see details on section "dates and rooms"); Introduction and guest lecture.
- 6./13./20. and 27. October 2023: Site visits, in the afternoon. Detailed program tba at the beginning of the semester. Keep the entire afternoons/early evenings free of any other commitment! Detailed timetable depends on the site visits (not all in Basel or surroundings).
- Last meeting: 15. December 23. Details regarding room and time slot will tba directly.

This course is offered by the MSD: Proff. Dr. Patricia Holm (lead), and Frank Krysiak (head of the MSD teaching committee).

41821-01	Vorlesung mit Übungen: Ecological Sustainability Aspects of Climate Change	3 KP
<b>Dozierende</b>	<b>Dirk Schindler</b>	
<b>Zeit und Ort</b>	Mo 14:15-18:00 Vesalianum, Seminarraum (O2.02) Exam: 30. October 2023: during usual lecture time. Room tba.	
<b>Datum</b>	18.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	unregelmässig	
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften	
<b>Module</b>	Modul: Kernbereich Naturwissenschaften (Masterstudium: Sustainable Development)	
<b>Lernziele</b>	The students - deepen their knowledge on current global and regional climate change; - extend their knowledge on anthropogenic influence causing current climate change; - develop solid skills for the objective interpretation and assessment of the changes associated with the projected climate change in physical, biological and human systems; - analyse and evaluate possibilities for the application of mitigation und adaptation strategies.	
<b>Inhalt</b>	Current climate change is altering many physical, biological and human systems in the earth-atmosphere system. With regard to the near future, projected climate change is the greatest challenge for mankind. The topics of the course will provide an interdisciplinary overview of observations, analyses, simulations and interpretations of current and projected climate change and its consequences at regional and global scales.  Amongst others the following topics are covered: - Climate system as part of the earth system; - Overview about the facets of current and projected climate change; - Impacts of global and regional climate change on physical, biological and human systems; - Mitigation and adaptation strategies;

Bemerkungen	Weekly course of 4 lessons during first half of teaching period: 18.09. to 30.10.2023: Monday, from 14:15 to 18.00h.  MSD students with focus area in natural sciences can accredit the course within the published module. All MSD students can transfer the credit points to the "FASR" module (learning agreement, template available on the website MSD/downloads MSD 2017).  This course is offered by the MSD. Dr. Dirk Schindler holds a teaching assignment.
Vorlesung mit Übungen: Global Change Resources	
3 KP	
Dozierende	Miriam Simone Andres
Zeit und Ort	Mo 10:15-12:00 Vesalianum, Seminarraum (O2.02) Exam: 11. Dec. 2023: during usual lecture time. Room tba.
Datum	18.09.2023

<b>Intervall</b>	wöchentlich
<b>Angebotsmuster</b>	Jedes Herbstsemester
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften
<b>Module</b>	Modul: Kernbereich Naturwissenschaften (Masterstudium: Sustainable Development) Modul: Sustainable Resource and Soil Management (Masterstudium: Geowissenschaften)
<b>Lernziele</b>	<ul style="list-style-type: none"><li>- Knowledge of key mineral and fossil resources, their occurrence and distribution.</li><li>- Understanding of extraction and transport pathways of key mineral and fossil resources.</li><li>- Basic understanding of environmental risks, legal frameworks and societal impacts.</li><li>- Basic understanding of CO<sub>2</sub> in the production of i.e. cement and complexity of carbon capture and storage.</li><li>- Knowledge of processes and challenges in waste management and urban mining.</li></ul>
<b>Inhalt</b>	<p>From sand to solar, from molybdenum to mobile phones, from cobalt to computers: mineral resources form the basis of practically every aspect of our modern society. Never before in the history of our global community have we extracted, produced and consumed more of these valuable resources.</p> <p>This course aims to:</p> <ul style="list-style-type: none"><li>- identify key mineral and fossil resources;</li><li>- understand their distribution, extraction and transport pathways;</li><li>- highlight environmental risks, legal frameworks and societal impacts;</li><li>- discuss alternative concepts, learn about the circular economy and the 3R's (reduce, reuse, recycle).</li></ul> <p>With a mixture of lectures, case studies, exercises and excursions, you will learn about the complexity of extracting rare earth minerals, which are critical for our electronic and digital economy. Because Switzerland has no oil and gas resources, but plenty of salt, sand and silt, these valuable resources will be emphasized in a local context. Furthermore, we will investigate the history of how the extraction of mineral resources has evolved over the last hundred years. We will explore the question of 'Who owns the mineral resources under your house? And the mineral resources on the seabed.' We will also track the carbon footprint of the cement industry and how to eliminate the CO<sub>2</sub> by-product of the production process. Switzerland is a champion in the waste management department and is also advanced in the recycling of mineral resources and urban mining. A firsthand view of such a recycling plant will be integrated into the course as a scheduled excursion.</p>

Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)

Login and application only possible with open link. Link guides to the ADAM website, you still  
have to do the login.

First emails with confirmation of participation will be sent out at the end of the first deadline.  
In case of vacancies the online application link remains open until 27. September 23/  
midnight.

Course enrollment on MOnA should be completed by the beginning of the teaching period  
(withdrawal possible until Monday of teaching week five).

#### Bemerkungen

Note: Special course inscription and entry requirements!

Mandatory for students of the MSD who have chosen the focus area of natural sciences. No  
credit points transfer possible to any different module than published.  
Students who have chosen the focus area of social sciences or economics transfer the credit  
points to the 'FASR' module (learning agreement, template available on the website MSD/  
downloads MSD 2017).

This lecture is offered by the MSD. Dr. Miriam Andres holds a teaching assignment.

25635-01	+ Vorlesung mit Übungen: Transformation of Energy Systems to Renewable Energy Flows 2010-2050		2 KP
	<b>Dozierende</b>	<b>Rudolf Rechsteiner</b>	
	<b>Zeit und Ort</b>	Fr 08:15-12:00 Bernoullistrasse 30/32, Hörsaal 223	
	<b>Datum</b>	22.09.2023

Only for students enrolled regularly in the MSD/2nd semester onwards, limited number of participants (19)! No other students admitted.  
  
Specific participation requirements:  
- Mandatory course application (for link see section course application = Anmeldung);  
- students from 2nd MSD semester onwards;  
- 12 CP in total must be already achieved (incl. spring semester 23) in the two complementary knowledge modules (of the chosen focus area).

**Anmeldung zur Lehrveranstaltung**

Please note entry requirements. For details see section "admission requirements".  
  
Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)  
  
Login and application only possible with open link. Link guides to the ADAM website, you still have to do the login.  
  
First emails with confirmation of participation will be sent out at the end of the first deadline. In case of vacancies the online application link remains open until 22. September 23/  
midnight.  
  
Course enrollment on MOA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).

**Bemerkungen**

This class is published for the three core competences modules. However, the teaching committee strongly advise the transfer of these credit points to the FASR module (via learning agreement; template available on the website MSD/downloads MSD 2017).  
  
Schedule:  
- 22. September 2023: 14.15 - 17.00h; at Unibas (room see details on section "dates and rooms"): Introduction and guest lecture.  
- 6./13./20. and 27. October 2023: Site visits, in the afternoon. Detailed program tba at the beginning of the semester. Keep the entire afternoons/early evenings free of any other commitment! Detailed timetable depends on the site visits (not all in Basel or surroundings).  
- Last meeting: 15. December 23. Details regarding room and time slot will tba directly.  
  
This course is offered by the MSD: Proff. Dr. Patricia Holm (lead), and Frank Krysiak (head of the MSD teaching committee).

14253-01	Seminar: Environmental Ethics and Intergenerational Justice	3 KP
<b>Dozierende</b>	<b>Barbara Schmitz</b>	
<b>Zeit und Ort</b>	Di 12:15-14:00 Rosshofgasse (Schnitz), Seminarraum S 01 Final session (discussion of essays): January 24, date tba (will be online).	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Fachbereich Nachhaltigkeitsforschung	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Komplementärer Basisbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Praktische Philosophie (MSF - Philosophie) Modul: Fields: Environment and Development (MSG - African Studies)	

<b>Lernziele</b>	<p>The participants know</p> <ul style="list-style-type: none"><li>- different approaches in environmental ethics;</li><li>- the specific problems of intergenerational justice.</li></ul>
<b>Inhalt</b>	<p>The central questions of environmental ethics concern the moral obligations we have towards protecting our natural environment. How can these obligations be rationally justified? What do they include? Physiocentric approaches suppose that the value of protecting our environment is not just based on human interests. In contrast, anthropocentric approaches completely explain the obligation to conserve the nonhuman nature by reference to the interests of human beings who for example have a need for an undestroyed environment as an economical resource or as an area for their relaxation. These different approaches will be discussed in the first part of the course.</p> <p>Sustainable development is aiming at the protection of the economical and ecological conditions of the good life of future generations. By serving this goal environmental ethics becomes part of an ethics concerning our responsibility for the future. In the second part of the course different readings of this responsibility will be discussed. In this context, it will also be examined in which way our obligation to protect our environment can be justified by the idea of justice between present and future generations.</p>
<b>Literatur</b>	<p>The literature is presented in class.</p>

September 23/ midnight.</p> <p>Course enrollment on MOA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).</p>
<b>Bemerkungen</b>	<p>Note: Special course application and entry requirements!</p> <p>Mandatory for all students of the MSD unless the following situation applies to you: Those who have already attended a similar class are supposed to contact PD Dr. Basil</p>

Bornemann and determine with him a substitute and inform C. Chebbi by email. A learning agreement is to be filled in if the substitute concerns the 'Complementary Knowledge in Social Science' module (template on website/downloads MSD 2017).

This seminar is offered by the MSD, Dr. B. Schmitz holds a teaching assignment.

41822-01	Seminar: Governance of Energy Transition	3 KP
<b>Dozierende</b>	<b>Annika Sohre</b>	
<b>Zeit und Ort</b>	Mi 08:15- 10:00 Bernoullistrasse 14/16, Kleiner Seminarraum 02.001	
<b>Datum</b>	20.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Fachbereich Nachhaltigkeitsforschung	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Erweiterung Gesellschaftswissenschaften M.A. (MSF - Politikwissenschaft) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	By the end of the seminar the participants will have acquired basic theoretical, empirical and methodological knowledge and skills necessary to critically analyze requirements, modes and results of governance of energy transition and have developed a critical understanding of news coverage in energy and climate policy.	
<b>Inhalt</b>	Steering the energy transition?! This demand of a transition of energy- and climate policies towards a sustainable system poses major challenges on national and international governance: Conflicts of opposing interests, uncertainties of implementation and legitimacy of interventions as well as areas of conflicts in the multi-level system of national and international arenas affect governance efforts of energy- and climate transitions. The challenges are also reflected in the high profile of actual energy- and climate change topics in the media. Thereby, media conveys and produces public discourses.  In the seminar, actual developments in the energy- and climate policy in Switzerland and other countries are analyzed from a governance perspective. What actors and what interests are important in the transition processes? Who steers what? What instruments are used with what effects? What structures and processes hinder and facilitate the political interventions? To what extent does the media pursue its own interests in energy- and climate policies? The students work out and discuss facts, background and positions of actual energy- and climate discourses based on newspaper articles and accomplishing scientific literature.	
<b>Literatur</b>	Relevant literature will be announced in the seminar.	
<b>Leistungsüberprüfung</b>	Lehrveranst.-begleitend	
<b>Skala</b>	1-6 0,1	
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung	
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren	
<b>Hinweise zur Leistungsüberprüfung</b>	Compulsory attendance in presence, required readings, oral presentation, essay. Details according to information of A. Sohre.	
<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar	
<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz	
<b>Unterrichtssprache</b>	Englisch	
<b>Teilnahmevoraussetzungen</b>	Special course application required for ALL (for details see 'course application' or 'Anmeldung').  Limited number of participants (20). Students of the MSD (incl. MSD preparation semester and IJSDS) have a first priority; those of the listed fields of study (see list of modules) have a second priority.  If you study something different you must do at least a master's degree within the Department of Social Sciences (Faculty of Humanities and Social Sciences) and may attend the seminar in case of vacancies (priority level three). No other students  Students of the MSD who have chosen the focus area in natural sciences or in economics must have completed the 'Complementary Knowledge in Social Sciences' module (or at least	

earned 8 CP out of 12 CP).

#### Anmeldung zur Lehrveranstaltung

Please note entry requirements. For details see section "admission requirements".

Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)

have to do the login.

First emails with confirmation of participation will be sent out at the end of the first deadline.  
In case of vacancies the online application link remains open until 27. September 23/  
midnight.

Course enrollment on MOnA should be completed by the beginning of the teaching period  
(withdrawal possible until Monday of teaching week five).

#### Bemerkungen

Note: Special course inscription and entry requirements!

Students with focus area in social sciences may accredit the course within the published  
module.

All MSD-students can transfer the CP to the module "Focal Areas in Sustainability  
Research" (learning agreement, template available on the website MSD/downloads MSD  
2017).

This seminar is offered by the MSD. Dr. A. Sohre is member of the Sustainability Research  
Group, Dep. Social Sciences, Faculty of Humanities and Social Sciences and head of the  
research network "Sustainable Future" (Univ. of Basel).

66155-01	+ Seminar: Innovations for Sustainability	3 KP
<b>Dozierende</b>	<b>Machteld Simoens</b>	
<b>Zeit und Ort</b>	Di 14:15-16:00 Soziologie, Hörsaal 215	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	einmalig	
<b>Anbietende Organisationseinheit</b>	Fachbereich Soziologie	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Politik, Entwicklung und soziale Ungleichheit (BSF - Soziologie) Modul: Ungleichheit, Konflikt, Kultur (MSF - Soziologie) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	Upon completion of this course, you will be able to o understand the role of innovations in sustainability transitions, o reflect on the transformational potential of sustainable innovations, o describe and assess a sustainability innovation as well as compose recommendations for its successful development, o condense larger amounts of information unto a scientific poster.	
<b>Inhalt</b>	Innovation has been the key strategy to address environmental and social challenges and transform our society towards more sustainability in the past decades. Indeed, when we take a close look around us, we see an abundance of innovations aiming to support transformations towards more sustainability by providing an alternative (and more sustainable) approach to producing and consuming all kinds of resources. In this seminar, we explore the basic premises of innovations and their potential for sustainability transitions.  The seminar is composed of two blocks of input-seminars in which theoretical approaches and practical examples are interactively discussed. The first block focuses on understanding the role of innovations as well as grasping the variety of innovation types and the structures in which they are embedded. Despite all positive sides of innovations, also the current sustainability problems are often the result of successful innovations in the past. Therefore, the second block of input-seminars will delve into the dark side of innovations as well as structural elements that limit the success of new approaches and the struggles that new ideas face to attract societal attention. Additionally, we will look into how to support responsible and sustainable innovations for sustainability.	

<b>Literatur</b>	The theoretical inputs and critical discussions are translated by the participants into an assessment of a sustainability innovation of their choice. In this group work, participants will look into both the positive as well as the negative aspects of the innovation, while reflecting on its transformational potential and considering concrete recommendations to ensure or enhance the innovation's sustainability. In between the input-seminars, the participants will have time to focus on their project. Finally, the participants will condense their findings onto a poster and present it to their peers.
<b>Leistungsüberprüfung</b>	Will be announced in the syllabus.

57243-01	Seminar: Quality of Life and Sustainability: Theoretical and Empirical Approaches	3 KP
<b>Dozierende</b>	Marius Christen <b>Adam Hearn</b>	
<b>Zeit und Ort</b>	Do 14:15-16:00 Vesalianum, Seminarraum (O2.02)	
<b>Datum</b>	21.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	unregelmässig	
<b>Anbietende Organisationseinheit</b>	Fachbereich Nachhaltigkeitsforschung	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	The students - will know different approaches to well-being & justice - will know relations between well-being, justice and sustainability - are able to critically discuss claims regarding well-being, justice in relation to sustainability - are able to understand how well-being and justice research can be applied empirically in relation to sustainability.	
<b>Inhalt</b>	Sustainability is very often understood in terms of environmental protection („saving the planet“). Well-being or quality of life as well as justice are also very often conceived of as either something different from sustainability or even the opposite of sustainable development („we do not want to go back to the cave“). There are, however, very good reasons to look upon them as being inextricably linked to each other. The seminar will go along this line. We will first look at different theoretical approaches to well-being (or quality of life) following the hedonic (life satisfaction, happiness) and the eudaemonic (e.g., capabilities) tradition and having a look at empirical studies on how well-being might matter. We will then look at different conceptions and elementary questions of intergenerational justice and reflect how intergenerational justice and sustainability are being operationalized. A particular focus will be on the capability approach.  The seminar has the format of a research seminar. The paper Burger & Christen 2022 builds its reference point.	
<b>Literatur</b>	Burger, P. and Christen, M., 2022. Sustainability, well-being and justice. In The Routledge Handbook of Democracy and Sustainability (pp. 135-149). Routledge.	
<b>Leistungsüberprüfung</b>	Lehrveranst.-begleitend	
<b>Skala</b>	1-6 0,1	
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung	
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren	
<b>Hinweise zur Leistungsüberprüfung</b>	Compulsory attendance in presence, required readings, oral presentations, essay. Details: 1) Oral presentation on one of the sub-topics: prepare questions for the plenary discussion – relate the topic critically to Burger & Christen 2022 (15' max) 2) Oral presentation of a topic/idea for a written essay (5' max)	

3) Essay submission (short seminar paper); length: 15-20'000 characters blanks but not references included, with a minimum of using/discussing 5 scientific papers. Deadline for submission: 22.January 2024 (no postponing).  
Further information and inputs given during the classes.

kein spezifischer Einsatz  
Englisch  
Special course application required for ALL (for details see 'course application' or 'Anmeldung').

Limited number of participants (20), Students of the MSD, IJDSD and the listed programs (see list of modules) have priority.  
If you study something different you must do a master's degree within the Department of Social Sciences/Faculty of Humanities and Social Sciences and may attend the seminar in case of vacancies. No other students admitted.

**Anmeldung zur Lehrveranstaltung**

MSD 2017  
Students who have chosen the focus area in natural sciences or in economics must have completed the "Complementary knowledge in Social Sciences" module (at least 8 CP).  
Please note entry requirements. For details see section "admission requirements".

Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)

Login and application only possible with open link. Link guides to the ADAM website, you still have to do the login.

First emails with confirmation of participation will be sent out at the end of the first deadline.  
In case of vacancies the online application link remains open until 27. September 23/  
midnight.

Course enrollment on MOnA should be completed by the beginning of the teaching period  
(withdrawal possible until Monday of teaching week five).

**Bemerkungen**

Please note entry requirements and mandatory course application procedure (additional to registration on MOnA).

MSD 2017  
For students with focus area in social sciences the seminar is optional for the "Core Competences in Social Sciences" module.  
Transfer of credit points to the FASR module (learning agreement, template available on website MSD/downloads MSD 2017) is possible for all students.

This seminar is offered by the MSD. Dr. A. Hearn and Dr. M. Christen hold teaching assignments.

68995-01	Seminar: The Sustainabilization of the State: Theoretical Perspectives and Empirical Evidence across Countries	3 KP
<b>Dozierende</b>	<b>Basil Bornemann</b>	
<b>Zeit und Ort</b>	Di 12:15-14:00 Soziologie, Hörsaal 215	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	einmalig	
<b>Anbietende Organisationseinheit</b>	Fachbereich Soziologie	
<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Staatlichkeit, Entwicklung und Globalisierung (Masterstudium: European Global Studies) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Ungleichheit, Konflikt, Kultur (MSF - Soziologie) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	Students acquire theoretical and empirical knowledge to describe, explain and evaluate the emergence and transformation of the sustainable state.	

## Inhalt

In addition, they will develop social and communication skills to prepare and deliver social science presentations and to participate in social science discussions.

The state was a central reference point for political demands and scientific analyses dealing with the management of ecological challenges until the mid-1990s. Yet, it initially played a subordinate role in the discourse on sustainable development, which gained prominence from the early 1990s and soon became a new guiding idea in global environmental policy (and in other policy areas). The then-newly emerging governance perspective dominated theoretical and empirical analyses of sustainable development, pushing the state into the background. Given the complexity of the challenge, sustainable development was assumed to benefit, if not depend, largely on new forms of governance beyond the state, involving a variety of actors from different sectors and levels (Lange et al., 2013).

In recent years, however, the state has increasingly moved into the focus of attention in sustainability politics and research, and there is a growing interest in analyzing the role(s), functions, and impacts of the state in the context of sustainability transformations (e.g. Heinrichs & Laws, 2014; Hysing, 2015; Duit et al. 2016; Bornemann & Christen, 2019; Hausknost & Hammond, 2020; Christen & Bornemann, 2021; Mathis et al., 2022; SAGW, 2020). In this context, emphasis is put on the tensions between environmental demands on the one hand and issues of democratic legitimacy and capitalist imperatives on the other (see also Saretzki, 2011; Blühdorn, 2020; Bornemann et al., 2022). But the role of the state is also increasingly discussed in the context of post-growth approaches to sustainability (D'Alisa & Kallis, 2020; Koch, 2020) and in the field of social policy, where there is growing interests in the eco-social state and sustainable welfare (Coote, 2022; Jakobsson et al., 2018; Koch & Fritz, 2014; Gough 2016, 2022; Laruffa et al., 2022).

This renewed interest is based on at least three developments. First, there is a growing critical understanding of the central role of the (neoliberal) state in creating and perpetuating socio-ecological problems, a politics of unsustainability (Blühdorn & Welsh, 2008), which underscores that the state must transform itself if it is to end its complicity in generating the problems and make a positive contribution to sustainable development (e.g., Hausknost & Hammond 2020). Second, there is spreading disillusionment with the actual and expected future performance of (global) governance arrangements beyond the state in addressing particularly complex social-ecological problems (Park et al., 2008) that give rise to reconsideration and revitalization of the state's role in sustainability governance. Third, the socio-ecological crisis has evolved – not least as a result of insufficient efforts in the past – from a future scenario to a reality in the here and now, prompting calls for a stronger and more authoritative steering role of the state to grow louder – sometimes with (approving or critical) reference to the (supposed) success of state-led transformation processes in capitalist autocracies such as China (Beeson, 2010; Willke, 2014; Wainwright & Mann, 2018).

Alongside this turn to the state in sustainability (governance) research, the state is also increasingly coming to the fore in other political and academic debates. In the context of anti-globalist discourses and movements calling – on the left – for a strong redistributive state, or – on the right – for an ethnically based nation-state, the state serves as a beacon of hope for ending an era of (neoliberal) globalization. The experience of the Covid-19 pandemic has also sparked a renewed interest in the state. Thus, on the one hand, the early phase of the pandemic demonstrated that states are indeed capable of more than has long been assumed; on the other hand, as the pandemic progressed, state actions have increasingly encountered legitimacy and capacity limits (Schröter, 2022). Politically, the rise of statist positions, which see a strong state also in climate and sustainability policy (see Bornemann & Christen, 2020), is challenged by libertarian counter-movements, which see any form of state intervention as an unacceptable restriction of individual freedom (see Amlinger & Nachtwey, 2022), as well as by emerging anarchist positions (spreading throughout radical social movements), which argue for a radical democratic decentralization of the state in the face of the worsening socio-ecological crisis (Shahar, 2020; Smessaert and Feola, 2023).

Overall, there is not only increased discussion about the functions and role(s) of the state in sustainability transformation but also about the state in general. As Paolo Gerbaudo (2021) argues, we are witnessing the end of neoliberal globalization: the neoliberal “exopolitics” of freedom, flexibility and opportunity in the global marketplace is increasingly replaced by an inward-oriented neo-statist “endopolitics” oriented towards issues of “sovereignty”, “protection” and “control”. Crucially, this “return of the state” (Garrard 2022; see also Mitchell and Fazi 2017) may involve progressive processes that reinforce democracy, sustainability and social justice, but it may also entail a rise in nationalist-xenophobic authoritarianism. Precisely like at Karl Polanyi's times (Polanyi 2001), the countermovement through which society protects itself from the insecurity generated by liberalized market may take the form of democratic renewal and enhanced social solidarity, but it may also facilitate the rise of fascism, the increase of international tensions and ultimately war (Mouffe, 2022).

This constellation provokes new questions about understanding the sustainable state, its roles, strategies and ways of acting, as well as its possibilities and limits in shaping socio-ecological transformations in times of crisis.

#### Forms and functions of the sustainable state

- How can the sustainable state be conceptualized both in normative and descriptive-empirical respects?
- What do different state-theoretical traditions (liberal, Weberian, Marxist etc.) have to say about the sustainable state, its functioning and its formation?
- What are defining normative, structural and functional features of the sustainable state in contrast to concepts such as the "green state" and the "environmental state"?
- What forms of the sustainable state can be distinguished?

#### Transformations towards the sustainable state

- How do states become sustainable states, and how can the sustainabilization of the state be analyzed? Under which conditions do processes of state sustainabilization unfold – who and what drives the emergence of the sustainable state?
- What actors (companies, trade unions, social movements, NGOs, etc.) promote and hinder the sustainabilization of the state? What is the role played by citizen participation and scientific expertise in this transformation?
- What is the relationship between capitalism (and capitalist imperatives, such as economic growth) and the sustainabilization of the state?
- How do global challenges and governance interplay with national and sub-national contexts?
- What is the relationship between the (de-)democratization processes, the rise of populism and the sustainable state?

#### Implications and impacts of the sustainable state

- What are the consequences and (side-)effects of state sustainabilization?
- How does the sustainable state become manifest in and affect different policy areas, such as social, environmental and economic policy?
- What are the risks and potentials of an increasingly salient socio-ecological crisis for the development of a sustainable state?

Leistungsüberprüfung	Lehrveranst.-begleitend
Skala	Pass / Fail
Wiederholungsprüfung	keine Wiederholungsprüfung
An-/Abmeldung zur Prüfung	Anmelden: Belegen; Abmelden: nicht erforderlich
Hinweise zur Leistungsüberprüfung	The assessment includes an oral (lecture, in a group) and a written (report) part. Details will be announced at the beginning of the seminar.
Belegen bei Nichtbestehen	nicht wiederholbar
Einsatz digitaler Medien	kein spezifischer Einsatz
Unterrichtssprache	Englisch
Teilnahmevoraussetzungen	Previous knowledge of sustainability concepts and the field of social science sustainability research is an advantage.

**Modul: Kernbereich Wirtschaftswissenschaften**

62643-01	+ Kolloquium: Consumer Behavior: Marketplace Applications	3 KP
<b>Dozierende</b>	<b>Juliano Laran</b>	
<b>Zeit und Ort</b>	Di 15:15-19:00 Wirtschaftswissenschaftliche Fakultät, Seminarraum S13 HG.35	
<b>Datum</b>	19.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Modul: Business Field: Marketing (Masterstudium: Business and Technology) Modul: Core Courses in Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Specific Electives in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften) Vertiefungsmodul: Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021))	
<b>Lernziele</b>	The goals of this course are for you to be able to: (a) explore consumer behavior concepts, (b) develop the ability to apply the theories discussed in class to common marketing problems, from the perspective of marketing managers and public policy makers, and (c) develop a set of skills important to successful performance in managerial positions.	
<b>Inhalt</b>	We will cover applications of consumer behavior to managerial practice in the marketplace. In each class, we will (a) study theories of decision making that can be used to predict consumers' decisions and, most importantly, (b) learn how to apply these theories in day-to-day marketing practice in the real world. Thus, the content is managerially-focused rather than theory-focused.  The research methods we will focus on are experiments and surveys, but we will also have at least one class discussing qualitative methods and their application to understand consumers.  Finally, we will discuss the concepts of consumer perception, motivation, persuasion, decision making, post-decision making (e.g., satisfaction, loyalty), and segmentation. Marketing practitioner articles (e.g., Harvard Business Review) and cases. <a href="https://adam.unibas.ch/goto_adam_crs_1197439.html">https://adam.unibas.ch/goto_adam_crs_1197439.html</a>

<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar	
<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz	
<b>Unterrichtssprache</b>	Englisch	
<b>Teilnahmevoraussetzungen</b>	Recommendation: If the lecture 31960 Microeconomics and Psychology of Decision Making has not yet been attended, it would be ideal to take the lecture 62650 Behavioral Science this semester.	
<b>Anmeldung zur Lehrveranstaltung</b>	1. The number of participants must be limited to 40. Students in the major "Marketing and Strategic Management" (Master of Business and Economics) and students of the Master in Business and Technology will be admitted with high priority.	

2. Please register for the course and the subsequent assignment via this link here ([https://adam.unibas.ch/goto.php?target=crs\\_1598666\\_rcodee9SkMywcgX&client\\_id=adam](https://adam.unibas.ch/goto.php?target=crs_1598666_rcodee9SkMywcgX&client_id=adam)) from 01.08.23 - 13.09.23.

Please make sure that you are registered for the fall semester and have paid the semester fees before you register for this course.

Eucor-Students and mobility students of other Swiss Universities or the FHNW first have to register at the University of Basel BEFORE the enrolment deadline and receive their login data by post (e-mail address of the University of Basel). Processing time up to a week! Detailed information can be found here: <https://www.unibas.ch/de/Studium/Mobilitaet.html>  
After successful registration you have access to the enrolment link.

3. You will be notified on 14.09.2023 by Email if you have been admitted to the course or on the waiting list.

4. A deregistration is possible until 21.09.23 at the latest by email to [studiendekanat-wwz@unibas.ch](mailto:studiendekanat-wwz@unibas.ch).

5. Your registration will be entered in your Online Services only after the official deadline of the course registration period, i.e. after October 16, 2023.

6. The following applies to everyone: enrollment = registration for the exam/assignment! In case of non-participation after registration it will be noted as "nicht erschienen" in the transcript.

10639-01	Kolloquium: Consumer Behavior: Theoretical Foundations	3 KP
<b>Dozierende</b>	<b>C. Miguel Brendl</b>	
<b>Zeit und Ort</b>	Di 14:15-18:00 Wirtschaftswissenschaftliche Fakultät, Seminarraum S15 HG.31	
<b>Datum</b>	31.10.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Modul: Business Field: Marketing (Masterstudium: Business and Technology) Modul: Core Courses in Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Specific Electives in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften) Vertiefungsmodul: Marketing and Strategic Management (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021))	
<b>Lernziele</b>	Get acquainted with research in consumer behavior and with reading and interpreting academic journal articles.	
<b>Inhalt</b>	We will discuss theory and experiments from the field Consumer Behavior. This field builds on knowledge from psychology to understand the behavior of consumers. Most weeks we will examine a single journal article in detail, examining what is most important about it. We will explore the researchers' main hypotheses and how they tested them. To get an impression of topics in this area, look at the tables of contents of the Journal of Consumer Research, Journal of Consumer Psychology, or the Journal of the Association for Consumer Research.	
<b>Literatur</b>	Journal articles from the academic consumer behavior literature (e.g., from the Journal of Consumer Research, the Journal of Consumer Psychology, or the Journal of Marketing Research) and some closely related research from psychology and management journals.	
<b>Leistungsüberprüfung</b>	Leistungsnachweis	
<b>Skala</b>	1-6 0,1	
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung	
<b>An-/Abmeldung zur Prüfung</b>	An- und Abmelden: Dozierende	
<b>Hinweise zur Leistungsüberprüfung</b>	Details to be determined. You will need to write an end-of-semester essay that will determine all or most of the final grade.	

Students are also required each week to submit brief, written answers to a standard set of questions regarding that week's reading, to attend class, and to engage in discussion.

**Belegen bei Nichtbestehen**

Either being currently registered for 62650 Behavioral Science, or having completed it before, or having completed 31960 Microeconomics and Psychology of Decision Making before. If you have done similar coursework which you believe substitutes 62650 Behavioral Science, please contact the instructor.

**Anmeldung zur Lehrveranstaltung**

1. The number of participants is limited to 40  
Students in the major "Marketing and Strategic Management" (Master of Business and Economics) and students of the Master in Business and Technology will be admitted with high priority.

2. Please register for the course and the subsequent assignment via this link here [https://adam.unibas.ch/goto.php?target=crs\\_1598704\\_rcodeqQKmvZJUEM&client\\_id=adam](https://adam.unibas.ch/goto.php?target=crs_1598704_rcodeqQKmvZJUEM&client_id=adam) (possible after 01.08.2023).  
Please make sure that you are registered for the fall semester and have paid the semester fees before you register for this course.  
The first application deadline is 19.09.23! You will be notified on 20.09.23 by Email if you have been admitted to the course or on the waiting list!  
There will be a second application deadline for late applications on 16.10.23. You will then be notified on 17.10.23 if you have been admitted to the course or not!

3. Eucor-Students and mobility students of other Swiss Universities or the FHNW first have to register BEFORE the enrolment deadline at the University of Basel and receive their login data by post (e-mail address of the University of Basel). Processing time up to a week! Detailed information can be found here: <https://www.unibas.ch/de/Studium/Mobilitaet.html>  
After successful registration you have access to the enrolment link.

4. A deregistration is possible until 16.10.23 at the latest by email to [studiendekanat-wwz@unibas.ch](mailto:studiendekanat-wwz@unibas.ch)

5. Your registration will be entered in your Online Services only after the official deadline of the course registration period, i.e. after October 16, 2023.

6. The following applies to everyone: enrollment = registration for the exam/assignment! In case of non-participation after registration it will be noted as "nicht erschienen" in the transcript.

**Bemerkungen**

There will be mandatory homework in preparation of Session 1. Hence, check the course webpage before. Attendance is also mandatory as of Session 1.

This course is a pre-requisite for "43498-01 Psychological Theory in Consumer Behavior", for "31953-01 Behavioral Marketing", as well as for writing a master's thesis in behavioral marketing.

For some courses in the area of Behavioral Marketing you need to first take other courses. A master's thesis in this area also requires particular prior course work. You can find an overview here: <https://www.unibas.ch/de/marketing/courses-masters-thesis/>

48409-01	Kolloquium: Corporate Responsibility	3 KP

<b>Lernziele</b>	- Application and discussion of the latest research findings - Analysis of the practical implementation of CR based on case studies
<b>Inhalt</b>	Corporate responsibility (CR) is more than a buzz-word in modern management. It is assessed primarily in the three areas of ecological, social and governance. The so-called ESG factors serve as a basis for strategic decisions, marketing actions and company valuations on financial markets. In this colloquium, current scientific results on CR and case studies will be discussed. Additionally, we plan a field trip to a local company to discuss, how corporate responsibility works today.
<b>Literatur</b>	basic literature: Haski-Leventhal, D.: Strategic Corporate Responsibility, Sage, 2018 Furthermore, a bibliography of recent research articles will be announced at the beginning of the colloquium.

<b>Anmeldung zur Lehrveranstaltung</b>	1. The number of participants is limited to 20.

2. Please register for the course and the subsequent assignment by email to anja.rogenmoser@unibas.ch no later than 15.09.2023. Mandatory information for registering: e-mail address of the University of Basel, first and last name and Swiss matriculation number (if available).  
Please make sure that you are registered for the fall semester and have paid the semester fees before you register for this course.  
Eucor-Students and mobility students of other Swiss Universities or the FHNW first have to register at the University of Basel BEFORE the enrolment deadline and receive their login data by post (e-mail address of the University of Basel). Processing time up to a week! Detailed information can be found here: <https://www.unibas.ch/de/Studium/Mobilitaet.html>
3. You will be notified on 18.09.2023 by Email if you have been admitted to the course.
4. A deregistration is not possible.
5. Your registration will be entered in your Online Services only after the official deadline of the course registration period, i.e. after October 16, 2023.
6. The following applies to everyone: enrollment = registration for the exam/assignment! In case of non-participation after registration it will be noted as "nicht erschienen" in the transcript.

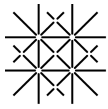

<b>Bemerkungen</b>	There is a limited number of participants of max. 20 persons.
--------------------	---

62246-01	Kurs: Sustainability in Practice	3 KP
	<b>Dozierende</b>	<b>Patricia Holm</b> Frank Christian Krysiak
	<b>Zeit und Ort</b>	Fr 14:15-17:00 Rosshofgasse (Schnitz), Seminarraum S 01 Last meeting: 15. December 23. Details regarding room and time slot will tba directly.
	<b>Datum</b>	22.09.2023
	<b>Intervall</b>	unregelmässig
	<b>Angebotsmuster</b>	unregelmässig
	<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften
	<b>Module</b>	Modul: Kernbereich Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Kernbereich Naturwissenschaften (Masterstudium: Sustainable Development) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development)

<b>Lernziele</b>	<ul style="list-style-type: none"> <li>- Students gain knowledge about institutions and organizations in the field of sustainable development in the region;</li> <li>- they acquire a basic understanding how a project develops from scientific knowledge to implementation,</li> <li>- they know typical fields of sustainability in practice,</li> <li>- they are able to critically discuss chances, but also challenges and difficulties when implementing SD ideas in the practice.</li> </ul>
<b>Inhalt</b>	Visits of institutions and organizations in the region, which are active in research, development of management solutions, knowledge transfer or application of scientific knowledge in the field of sustainable development. Projects will be presented and discussed. The visits will be complemented by presentations of selected experts at the University of Basel.
<b>Leistungsüberprüfung</b>	Lehrveranst.-begleitend
<b>Skala</b>	Pass / Fail
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren
<b>Hinweise zur Leistungsüberprüfung</b>	Compulsary attendance in presence for the lectures (starting day and final meeting), as well as for the site visits and presentations. Production of video essays (group work with clear declaration of working part of each student), details tba by the lecturers in class.
<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar
<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz
<b>Unterrichtssprache</b>	Englisch
<b>Teilnahmevoraussetzungen</b>	Only for students enrolled regularly in the MSD/2nd semester onwards, limited number of participants (19)! No other students admitted.  Specific participation requirements: <ul style="list-style-type: none"> <li>- Mandatory course application (for link see section course application = Anmeldung);</li> <li>- students from 2nd MSD semester onwards;</li> <li>- 12 CP in total must be already achieved (incl. spring semester 23) in the two complementary knowledge modules (of the chosen focus area).</li> </ul>
<b>Anmeldung zur Lehrveranstaltung</b>	<p>Please note entry requirements. For details see section "admission requirements".</p> <p>Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/ midnight: <a href="https://adam.unibas.ch/goto_adam_crs_544052.html">https://adam.unibas.ch/goto_adam_crs_544052.html</a></p> <p>Login and application only possible with open link. Link guides to the ADAM website, you still have to do the login.</p> <p>First emails with confirmation of participation will be sent out at the end of the first deadline. In case of vacancies the online application link remains open until 22. September 23/ midnight.</p> <p>Course enrollment on MOnA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).</p>
<b>Bemerkungen</b>	<p>This class is published for the three core competences modules. However, the teaching committee strongly advise the transfer of these credit points to the FASR module (via learning agreement; template available on the website MSD/downloads MSD 2017).</p> <p>Schedule:</p> <ul style="list-style-type: none"> <li>- 22. September 2023: 14.15 - 17.00h; at Unibas (room see details on section "dates and rooms"): Introduction and guest lecture.</li> <li>- 6./13./20. and 27. October 2023: Site visits, in the afternoon. Detailed program tba at the beginning of the semester. Keep the entire afternoons/early evenings free of any other commitment! Detailed timetable depends on the site visits (not all in Basel or surroundings).</li> <li>- Last meeting: 15. December 23. Details regarding room and time slot will tba directly.</li> </ul> <p>This course is offered by the MSD: Proff. Dr. Patricia Holm (lead), and Frank Krysiak (head of the MSD teaching committee).</p>

<b>Zeit und Ort</b>	Mi 16:15-18:00 Juristische Fakultät, Seminarraum S9 HG.41
<b>Datum</b>	20.09.2023
<b>Intervall</b>	wöchentlich
<b>Angebotsmuster</b>	Jedes Herbstsemester
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ
<b>Module</b>	Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Preparation Master's Thesis in Economics and Public Policy (Masterstudium: Economics and Public Policy) Modul: Research Design in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Research Design in International Business, Trade and the Environment (Masterstudium: Wirtschaftswissenschaften) Modul: Seminararbeiten (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021)) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies)
<b>Lernziele</b>	You will acquire in-depth knowledge on the topic chosen for your seminar thesis. In addition, you will learn how to extract the main results from scientific studies, how to apply them to a particular question, how to compare and discuss different studies, and how to build your own argument on this basis. If you choose to do so, you can also learn how to (slightly) extend existing studies on your own.
<b>Inhalt</b>	<p>The course will cover current topics in environmental and energy economics, ranging from water pollution, climate change, promotion of renewables to new designs for electricity markets.</p> <p>Students will choose their individual topic from a supplied list and work individually on their seminar thesis. However, they will be required to connect their work to the general topical clusters of the seminar and to discuss the work of other students.</p> <p>During the first weeks, some training on presentation skills and on providing constructive feedback will be given.</p>
<b>Literatur</b>	Students will receive one literature reference for their topic as a starting point for their own literature search.
<b>Weblink</b>	<a href="https://wwz.unibas.ch/de/umweltoekonomie/lehre/">https://wwz.unibas.ch/de/umweltoekonomie/lehre/</a>
<b>Leistungsüberprüfung</b>	Seminarleistung
<b>Skala</b>	1-6 0,1
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung
<b>An-/Abmeldung zur Prüfung</b>	An- und Abmelden: Fakultät
<b>Hinweise zur Leistungsüberprüfung</b>	Students are required to write a seminar thesis based on existing scientific literature on their topic that includes an original contribution. This contribution can be either (a) a (small) extension of existing studies or (b) the application of existing results to a particular research question that involves connecting different studies and building your own argument.
<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar
<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz
<b>Unterrichtssprache</b>	Englisch
<b>Teilnahmevoraussetzungen</b>	For students in the MA Business and Economics or the Master Economics and Public Policy: At least one of the following courses has been taken (or is taken in parallel): 14255 Environmental Economics (Krysiak) 29002 Electricity Markets (Weigt) 62655 Energy Economics (Weigt) 17691 International Trade, Resources and the Environment (Taylor)
	MSD-Students without a bachelor degree in economics/business and without focus area in economics are supposed to have completed the "Complementary Knowledge in Economics" module (MSD 2017). MSD-students with focus area in economics are required to have taken at least one of the courses mentioned above for students in the MA Business and Economics.
	More about the general prerequisites and the allocation process can be found here: <a href="https://wwz.unibas.ch/de/studium/master/masterseminare/">https://wwz.unibas.ch/de/studium/master/masterseminare/</a>

#### Anmeldung zur Lehrveranstaltung

The application for this seminar is done centrally and online from May 15 to June 12, 2023 with the Studiendekanat.  
The link to the online application form and more information can be found here: <https://wwz.unibas.ch/en/studies/master/masters-seminar/>  
The registration is binding. In case of non-participation after registration it will be noted as "nicht erschienen" in the transcript. For a break up after receiving a subject and title, there will be a "1.0" recorded. In addition, the priority of the wishes for future seminar applications is lost.

41957-01	+ Vorlesung: Advanced Econometrics	3 KP
<b>Dozierende</b>	<b>Kurt Schmidheiny</b>	
<b>Zeit und Ort</b>	Do 14:15-16:00 Wirtschaftswissenschaftliche Fakultät, Seminarraum S13 HG.35	
<b>Datum</b>	21.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Modul: Core Courses in Data Science and Computational Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Core Courses in Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Field Electives in Economics and Public Policy (Masterstudium: Economics and Public Policy) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Specific Electives in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Data Science and Computational Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Economics (Masterstudium: Wirtschaftswissenschaften) Spezialisierungsmodul: Areas of Specialization in International and/or Monetary Economics (Masterstudium: International and Monetary Economics) Vertiefungsmodul: Quantitative Methods (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021))	
<b>Lernziele</b>	This course is a supplement to the course "Econometrics" (12036) for ambitious students. The course follows the topics of Econometrics every week providing formal proofs and additional results using matrix algebra and asymptotic theory. The course is the basis for the more advanced MSc courses in econometrics.	
<b>Inhalt</b>	<ol style="list-style-type: none"> <li>1. Elements of matrix algebra: basic operations, trace, rank, inverse, eigenvalue and spectral decomposition</li> <li>2. Elements of probability theory: random variables, joint, conditional and marginal distribution, expected value and other moments, change of variables</li> <li>3. Elements of statistics: point estimation, interval estimation, hypothesis testing, large sample theory</li> <li>4. The algebra of the multivariate linear regression: degrees of freedom, Gauss-Markov theorem, Frisch-Waugh-Lovell theorem</li> <li>5. The algebra of instrumental variable estimation</li> <li>6. The algebra of basic panel data methods: within and between transformation, testing for unrelated effects under non-spherical disturbances</li> <li>7. Maximum Likelihood Estimation</li> <li>8. Binary choice as an example of deriving estimators and their properties using maximum likelihood</li> </ol>

<b>Datum</b>	21.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Modul: Ausgewählte Themen aus Ökonomie und Rechtswissenschaft (Masterstudium: Actuarial Science) Modul: Core Courses in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Core Courses in Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Field Electives in Economics and Public Policy (Masterstudium: Economics and Public Policy) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Specific Electives in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Finance, Controlling, Banking (Masterstudium: Wirtschaftswissenschaften) Spezialisierungsmodul: Areas of Specialization in International and/or Monetary Economics (Masterstudium: International and Monetary Economics)	
<b>Lernziele</b>	Students understand the logic of microeconomic models and know important concepts and results relating to the four topics considered in the course. This prepares students to conduct further, independent studies of microeconomic theory as is required for (a) understanding the various elements of microeconomic theory that appear in almost all fields of economics or (b) writing a master thesis in microeconomic theory.	
<b>Inhalt</b>	This course covers four of the topics at the core of modern microeconomic theory:  1. Consumer Theory. We first review the basic microeconomic model of individual decision making in the context of consumer choice, which models demand as a solution to a utility maximization problem, where utility in turn is viewed as a representation of preferences. In applications of consumer theory to fields such as industrial organization and marketing it is often essential to allow for some element of randomness in choice behavior. Hence, this part of the course will also offer an introduction to the kind of stochastic choice models considered in such applications.  2. Decision Under Uncertainty. Many economic decisions contain some element of uncertainty about the outcome of the choice that is made. To model this, most of economics relies on expected utility theory, which allows to capture attitudes towards risk in terms of properties of a so-called von Neumann-Morgenstern (VNM) utility function. This part of the course begins by discussing and illustrating this relationship between risk attitudes and the VNM utility function. It then turns to the foundations of expected utility theory and concludes	

	<p>by considering an extension of the theory that allows for the phenomenon of ambiguity aversion.</p> <p>3. Social Choice. Social choice theory studies collective decision making, i.e., how individual opinions of members of a society can be combined (e.g., by voting) to reach a decision or a ranking of alternatives. This part of the course introduces the basic concepts and covers Arrow's impossibility theorem, the Gibbard-Satterthwaite theorem, and single-peaked preferences.</p> <p>4. Auctions and Mechanism Design. Which procedure should a seller use to maximize her revenue from selling a good? Should she simply post a price? Bargain? Run an auction? This part of the course introduces some of the tools from the theory of mechanism design that economists have developed to answer these and related questions. In doing so, we pay special attention to auctions as these can be used to both motivate and illustrate the theory.</p> <p>Concepts: preferences, utility, optimal choice, risk and uncertainty, expected utility, risk and risk attitudes, subjective probability, ambiguity, aggregation of preferences, social welfare and social choice, strategy-proofness, games with asymmetric information, auctions and more general (selling) mechanisms, revenue equivalence, individual rationality, incentive compatibility, revelation principle, optimal mechanisms</p> <p>Methods: Some Analysis (Sets, Functions, Convexity, Continuity, Compactness,...), Calculus, Static Optimization, Probability, Basic Logic</p>
<b>Literatur</b>	Chapters 1, 2, 6, and 9 of the textbook «Advanced Microeconomic Theory» by Geoffrey Jehle and Philip Reny cover most of the content of the course at an appropriate level. Further references to relevant readings will be provided in the syllabus posted to ADAM at the beginning of the semester.
<b>Leistungsüberprüfung</b>	Leistungsnachweis
<b>Skala</b>	1-6 0,1
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren
<b>Hinweise zur Leistungsüberprüfung</b>	Written exam: 18.12.23; 8:15-9:45. WWZ S15: A-L; WWZ Audi: M-Z.
	<p>You can still withdraw from the examination by submitting a completed, signed form to our office from 17.10.23 until 27.10.23 / 12:00 o'clock. The deregistration form and the mail address can be found on the homepage of the Dean of Studies Office: <a href="https://www.unibas.ch/en/studies/examinations/de/-/registration-of-examinations/">https://www.unibas.ch/en/studies/examinations/de/-/registration-of-examinations/</a></p> <p>Prior to 16.10.23, please deregister only in the Online Services.</p>

Applies to everyone: Enrolment = Registration for the course and the exam!

62650-01	Vorlesung: Behavioral Science	3 KP
<b>Dozierende</b>	<b>C. Miguel Brendl</b>	
<b>Zeit und Ort</b>	Mi 12:15-14:00 Biozentrum, Maurice E. Müller Saal U1.111	
<b>Datum</b>	20.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ	
<b>Module</b>	Kernmodul: BWL (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021)) Modul: Fundamentals in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Fundamentals in Business and Technology (Masterstudium: Business and Technology) Modul: Fundamentals in Economics (Masterstudium: Economics and Public Policy) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Methoden der Wirtschaftswissenschaften (Masterstudium: European Global Studies)	
<b>Lernziele</b>	o Gain insights from behavioral research (social psychology, cognitive psychology, behavioral economics) into how people form judgments and make decisions o Improve your understanding of how managers, consumers, policy makers, entrepreneurs, and others make decisions. o Gain an alternative perspective to the prescriptions of "rational economics."	
<b>Inhalt</b>	The course focuses on human judgment and decision making from the perspective of the behavioral sciences, particularly psychology and behavioral economics. (The course does not require prior study of those areas however.)  Using observations from laboratory and field experiments, behavioral scientists describe how people make decisions and the mental processes that lead to these decisions. The theory is heavily guided by observations from experiments. Behavioral Science seeks to understand and predict how people judge and decide and how human judgments align with those prescribed by logic and rational economics.	
<b>Literatur</b>	To be determined. You will need to purchase some literature. I will post the literature you need to purchase by 1 September, both on the course webpage and here: <a href="https://adam.unibas.ch/goto_adam_crs_480685.html">https://adam.unibas.ch/goto_adam_crs_480685.html</a>	
<b>Leistungsüberprüfung</b>	Examen	
<b>Skala</b>	1-6 0,1	
<b>Wiederholungsprüfung</b>	eine Wiederholung, bester Versuch zählt	
<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren	
<b>Hinweise zur Leistungsüberprüfung</b>	written exam: 09.01.24; 8:30-10:00; DSBG Sporthalle: A-Z. For this exam you will still receive additional information by email. You would have to be on site at least 30 minutes before the exam starts. The addresses of the examination rooms can be found here: <a href="https://www.unibas.ch/de/studium/pruefungen/vorlesungs-und-pruefungsraeume/">https://www.unibas.ch/de/studium/pruefungen/vorlesungs-und-pruefungsraeume/</a>

#### Teilnahmevoraussetzungen

No more ECTS may be earned with this lecture if the course 31960 Microeconomics and Psychology of Decision Making has already been successfully completed.

#### Anmeldung zur Lehrveranstaltung

Registration: Please enroll in the Online Services (services.unibas.ch);

Eucor-Students and mobility students of other Swiss Universities or the FHNW first have to register at the University of Basel BEFORE the start of the course and receive their login data by post (e-mail address of the University of Basel). Processing time up to a week! Detailed information can be found here: <https://www.unibas.ch/de/Studium/Mobilitaet.html>  
After successful registration you can enroll for the course in the Online Services (services.unibas.ch).

Applies to everyone: Enrolment = Registration for the course and the exam!

#### Bemerkungen

For some courses in the area of Behavioral Marketing you need to first take other courses. A master's thesis in this area also requires particular prior course work. You can find an overview here: <https://www.unibas.ch/de/marketing/courses-masters-thesis/>

12036-01	+ Vorlesung: Econometrics	6 KP
<b>Dozierende</b>	Andrea Ghisletta <b>Kurt Schmidheiny</b>

<b>Lernziele</b>	This course provides students with the basic econometric tools for cross-section and panel data. It is an applied course preparing students to both conduct own empirical research projects and assess empirical research papers. Each of the discussed tools will be implemented using standard statistical software (Stata or R) and real world data. Students will learn how to choose the adequate statistical method, discuss its identifying assumptions, correctly interpret its results and to translate them into economically meaningful answers. This course is supplemented by the course "Advanced Econometrics" (41957) which provides formal proofs and additional results.	
<b>Inhalt</b>	Outline: 1. Causal effects and the logic of randomized experiments 2. Linear regression: Estimation, small and large sample properties, hypothesis testing, omitted variable bias, model selection, functional form, heteroscedasticity, autocorrelation, clustering 3. Instrumental variable estimation: Estimation, identification, weak instruments 4. Panel data: fixed effects, random effects 5. Maximum likelihood estimation 6. Binary choice: probit and logit	
<b>Literatur</b>	Any textbook in econometrics covers the topics developed in this course. The technical level of this course will be closer to the introductory text- books. However, students with a strong mathematical background may find the advanced textbook more appropriate. The two companions are not self-contained textbooks but useful to deepen the intuitive understanding. Introductory textbook: - Stock, James H. and Mark W. Watson (2020), Introduction to Econometrics, 4th Global Edition, Pearson. Advanced textbooks:

<b>Lernziele</b>	-Understand and explain the workings and implications of the theoretical IO models. -Connect the theoretical insights with practical applications. -Analyze effects of government policy on competition outcomes. -Understand and explain how assumptions relate to conclusions in IO theory.
<b>Inhalt</b>	Content: The course familiarizes students with various topics of modern industrial organization. We analyze the role of imperfectly competitive markets for firms' strategic decisions on, for example, product differentiation, advertising and price discrimination. We also examine the firms' responses to changes in the market environment. Main analytical tools will be microeconomic theory and game theory.

<b>Lernziele</b>	This course aims to understand the mechanisms behind people's (policy) attitude-formation and communication that influences it. Concerning substantive topics, our focus will first be on energy and climate policy. Later, we will broaden our scope to other policy areas. In the end, we will apply our understanding of public opinion and science communication to the cases of corporate activities. Overall, one should realize that science can inform our decision-making effectively in any setting of our life and career.
<b>Inhalt</b>	<p>In this course, we learn essential topics and empirical methods in the (sub)fields of public opinion and science communication. Formerly, we called this course "Energy and Climate Policy: Citizens' Perceptions."</p> <p>So-called public opinion scholars have been intrigued by questions like why individuals hold different perceptions about policies, technologies, or products and how these perceptions might influence their support (acceptance) for these objects. The field of science communication (or the science of science communication) has zoomed in to one of the trickiest determinants of people's perceptions and decision-making: people's knowledge, information-seeking behavior, and their "interactions" with scientific evidence. As you can easily imagine, to understand the nature of such communication, we must also consider how scientific findings are "chosen," understood, interpreted, and reported by some other actors as well, such as policy proposers, industry, and the media. As much as we can within a limited amount of time, we will touch upon these issues, too.</p> <p>The course consists of three parts.</p> <p>(1) In the first part, we draw on the public opinion literature, specifically in the energy and environmental policy domain. Based on the literature, we will learn what influences people's beliefs and attitudes. This segment will pay significant attention to the empirical methodologies used in the literature, mainly survey and survey experiment methods.</p> <p>(2) In the second (and a shorter) segment, we will move to the topic of the science of science communication. Like the first segment, we rely on the literature to learn what tends to prevent people from using scientific evidence to make well-informed decisions. In this segment, our substantive focus goes beyond energy and environment (simply due to the diverse focus of the subfield).</p> <p>(3) During the last few weeks, we will shift our gear and work on business cases (group work). This activity also serves as your final assignment (project) for the course. Each group will choose a business case to work on (from a selection of established cases published by Harvard Business Publishing: <a href="https://hbsp.harvard.edu/cases/">https://hbsp.harvard.edu/cases/</a>). Contrary to our earlier focus on policies, now the relevant decision-making of our emphasis is business-related decisions. However, the way we will use Harvard Business Cases will be slightly "exotic." Instead of evaluating a person's or firm's financial and strategic motives, we will evaluate whether their (the protagonists') decisions could have been improved if they used different strategies to understand their stakeholders' reactions (opinions/perceptions) or communication with them. Our purpose is to apply what we learned from the literature to various decision-making cases in the real world.</p>

<b>Literatur</b>	Reading materials are mainly from published scholarly articles and reports by international organizations. In the case study part, we will use Harvard Business cases. All relevant reading materials will be provided for download.

<b>An-/Abmeldung zur Prüfung</b>	Anm.: Belegen Lehrveranstaltung; Abm.: stornieren
<b>Hinweise zur Leistungsüberprüfung</b>	There will be no final examination for this course. Your final grade (1.0 - 6.0) will be determined by a combination of:  (1) Active participation and a self-assessment report on participation, (2) an article summary (giving a presentation and leading class discussions in group), and (3) case study (in group, using Harvard Business Case) as the final assignment. All of them will take place during the semester.
<b>Belegen bei Nichtbestehen</b>	beliebig wiederholbar

<b>Lernziele</b>	At the end of this course, students will be able to: - Explain environmental, social and governance policies their importance. - Demonstrate and apply the stages of sustainable finance and policy and technology uncertainties. - Critically analyze and the changing objectives of corporates in the context of market shorttermism. - Analyze why and how companies should connect sustainability to their competitive positions. - Connect and apply corporate sustainability performance with corporate financial performance. - Explain and connect business models, intangible assets, and strategies to incorporate environmental, social and governance initiatives. - Explain the benefits and limitations of traditional internal and external reporting in the	

context of environmental, social and governance.  
- Illustrate the importance of regulation, corporate ethics, and compliance.

#### Inhalt

This course provides a conceptual and theoretical framework of how sustainable finance and investment issues affect companies, investors, and other stakeholders. Capital market participants around the world are increasingly focusing on sustainability to manage risks and capitalize on new opportunities. It includes the incorporation of sustainable factors into stock valuation and selection processes, as well as shareholder engagement strategies. It also includes the practices to the management of environmental and climate change-related risks. The goal of this course is to provide students with a firm grounding in the range of issues in sustainability and the application of finance to address it. The course introduces how established practices, procedures, and tools from within the mainstream financial and corporate markets are being adapted to integrate a lens of sustainability in the pursuit of financial performance goals from both an investor and corporate perspective. This course explores the research, projected outcomes, multistakeholder collaborations, and signals of future actions to address them. This course will be useful for a wide range of finance and other professions.

#### Literatur

-Lecture notes:  
I will place the lecture notes on ADAM.

-Textbook:  
There is no required textbook for this course. The lecture notes and reading materials will keep you more than busy. In case you want to have an optional textbook, I would recommend "Environmental Finance: A Guide to Environmental Risk Assessment and Financial Products" (by Labatt and White). If you are looking for additional reading, there is a book published in 2020 "Grow the Pie. How Great Companies Deliver Both Purpose and Profit" (by Edmans).

-Further reading materials:  
The recommended reading materials such as research papers and cases will be added for each session.

	<b>Lernziele</b>	Why do firms exist? Why are firms organized the way they are? Traditional economic models leave little room for firms or other organizations as they focus on market exchange between individuals. This course will introduce students to microeconomic models that try to explain the existence and structure of firms as we observe them in the real world. Economics brings a rigorous approach that is grounded in theory. The course will provide a basic understanding of economic approaches to modeling and understanding aspects of firms, their structure, the behavior they create, and how they differ from market interaction. About half of the course will be based on the standard textbook by Milgrom and Roberts, the other half will consist of influential articles on the economics of organizations, by authors such as Coase, Williamson, Hart, and Tirole.
	<b>Inhalt</b>	<ul style="list-style-type: none"> <li>• Markets and Prices as Coordination and Incentive Devices</li> <li>• Transaction Costs</li> <li>• Property Rights Approach</li> <li>• Team Production</li> <li>• Asymmetric Information</li> <li>• Incentive Contracts</li> <li>• Efficiency Wages</li> </ul>
	<b>Literatur</b>	The readings will consist of both scholarly research articles and chapters from the textbook, Economics, Organization and Management, by Paul Milgrom and John Roberts (1992, Prentice Hall). Both kinds of readings will be made available online.

<b>Angebotsmuster</b>	Jedes Semester
<b>Anbietende Organisationseinheit</b>	Departement Umweltwissenschaften
<b>Module</b>	Modul: Vorbereitung Masterarbeit Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Vorbereitung Masterarbeit Wirtschaftswissenschaften (Masterstudium: Sustainable Development)
<b>Lernziele</b>	The students - know how to prepare a research proposal for their master's thesis in a structured, systematic and scientific manner; - know how to identify a valuable research topic in the field of sustainable development, to develop a related research question directed to a contribution to the scientific debate as well as designing a research approach (e.g. choice of methods) directed to answering the research question; - are able to characterize intersections between their approach and other disciplines as well as intersections with non-academic fields (such as politics, business etc.); - are familiar with formal requirements for a master's thesis (correct citation, presentation of graphs, figures, results, plagiarism etc.).
<b>Inhalt</b>	<p>Writing a master's thesis related to a topic of sustainability is the masterpiece of the MSD study program. Students are expected to use productively their acquired knowledge (in terms of methods and sustainability related content) for analyzing a specific topic. However, developing a research design that copes with scientific scrutiny and accuracy is by far not an easy endeavour. Questions like 'How can I find an interesting topic?' or 'According to which criteria should I decide to go for a specific method?' or - and most important – 'Why and how do I have to link my research design to the ongoing scientific discourse?' are waiting to be answered.</p> <p>This course is thought to support the students in developing their research proposal in a structured, systematic and scientific manner. Students get familiar with necessary elements of a master thesis: problem framing, introduction, background, aims, hypothesis, research questions, methods, results, discussion, reflection/contribution to the scientific debate etc. Students also learn how they can identify a valuable research topic in the field of sustainable development. Some elements are thereby generic, i.e. independent of a specific disciplinary perspective. Other elements are, to the contrary, highly dependent on the chosen disciplinary field. Other elements are concerned with capturing intersections between the field.</p> <p>Against this backdrop, the class will be jointly given by the three teachers at the beginning, when it comes to unfold the generic components. Subsequently the class will be split into three groups and the students will develop their research proposal along the specific requirements according to their own focus areas.</p>
<b>Leistungsüberprüfung</b>	Lehrveranst.-begleitend
<b>Skala</b>	1-6 0,1
<b>Wiederholungsprüfung</b>	keine Wiederholungsprüfung

<b>Einsatz digitaler Medien</b>	kein spezifischer Einsatz
<b>Unterrichtssprache</b>	Englisch
<b>Teilnahmevoraussetzungen</b>	Exclusively for MSD-students. Students of IJDSD may attend the course according to the agreement with MSD responsible contact person. No other students admitted.
<b>Anmeldung zur Lehrveranstaltung</b>	Course enrollment on MOnA should be completed by the beginning of the teaching period (withdrawal possible until Monday of teaching week five).

## Bemerkungen

Mandatory course for all students of MSD 2017 ("Preparation Master's Thesis" module). Students with focus area in natural science have to list this course in the learning agreement for the "Preparation Master's Thesis" module (template available on the website MSD/downloads MSD 2017). For details see guidelines and medium-term syllabus.

Plenary meetings for all participants on Mondays, 08:15 to 10:00 am on the following dates: 1: 18.09.23; 2: 02.10.23; 3: 30.10.23; 4: 13.11.23.

Meetings in between in groups according to the announcements of responsible teaching member.

This course is offered by the MSD: Prof. Dr. Patricia Holm and Frank Krysiak (lead) are members of the MSD teaching committee. Iljana Schubert is team member of the sustainability research group and holds a teaching assignment.

46737-01	Seminar: Experimental Research Methods in Social Science	3 KP
<b>Dozierende</b>	<b>Iljana Schubert</b>	
<b>Zeit und Ort</b>	Mi 12:15-14:00 Bernoullistrasse 14/16, Kleiner Seminarraum 02.001	
<b>Datum</b>	20.09.2023

<p>Limited number of participants (15), Students of the MSD and JIDSD have a first priority, those of the mentioned fields of study (see list of modules) have a second priority. If you study something different, you must do a master degree within the Departement of Social Sciences/Faculty of Humanities and Social Sciences and may attend the seminar in case of vacancies (=third priority). MSD students who have chosen the focus area in natural sciences or in economics must have</p>		

completed the 'Complementary Knowledge in Social Sciences' module (at least 8 CP).

#### Anmeldung zur Lehrveranstaltung

Please note entry requirements. For details see section "admission requirements".

Mandatory application for ALL! Link open from 16. August 23/noon-06. September 23/  
midnight: [https://adam.unibas.ch/goto\\_adam\\_crs\\_544052.html](https://adam.unibas.ch/goto_adam_crs_544052.html)

Login and application only possible with open link. Link guides to the ADAM website, you still  
have to do the login.

First emails with confirmation of participation will be sent out at the end of the first deadline.  
In case of vacancies the online application link remains open until 27. September 23/  
midnight.

Course enrollment on MOnA should be completed by the beginning of the teaching period  
(withdrawal possible until Monday of teaching week five).

#### Bemerkungen

Please note entry requirements and mandatory course application procedure (additional to  
registration on MOnA). For details see online course directory/section "application" =  
Anmeldung.

MSD 2017

Students who have chosen the focus area in natural sciences or in economics transfer the CP  
to the FASR module (learning agreement, template available on the website MSD/downloads  
MSD 2017).

For the students with focus area in social science it's mandatory to attend one class in  
methods, see information in the medium-term syllabus. If they attend this seminar on a  
voluntary base, they can accredit the CP either for the published module or transfer them to  
the FASR module (learning agreement).

This seminar is offered by MSD. Dr. Iljana Schubert is a post doc staff member of the  
Sustainability Research Group, Dep. Social Sciences, Faculty of Humanities and Social  
Sciences.

63537-01	Seminar: Living Labs and Participative Research for Sustainability Transitions	3 KP
<b>Dozierende</b>	Iljana Schubert <b>Annika Sohre</b>	
<b>Zeit und Ort</b>	Mi 10:15-12:00 Bernoullistrasse 14/16, Kleiner Seminarraum 02.001	
<b>Datum</b>	20.09.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	unregelmässig	
<b>Anbietende Organisationseinheit</b>	Departement Gesellschaftswissenschaften	
<b>Module</b>	Modul: Vorbereitung Masterarbeit Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Umwelt und Nachhaltigkeit (Masterstudium: European Global Studies) Modul: Resources and Sustainability (MSG - Changing Societies: Migration – Conflicts – Resources)	
<b>Lernziele</b>	By the end of the semester the participants will have acquired the knowledge and skills to design and carry out living lab and participative research in the field of sustainability.	
<b>Inhalt</b>	The aim of the course is to acquire skills in living lab and participative research in an applied framework. Living labs increasingly gain importance in the field of sustainability. They are defined as user-centered, innovation-oriented virtual or physical spaces in which to solve societal challenges by bringing together various stakeholders for collaboration (Hossain et al., 2019). The concept is based on a transdisciplinary, systematic user co-creation approach integrating research and innovation processes, including various research methods such as action research and design thinking. Particularly sustainable development asks for these research approaches in order to test, demonstrate and foster social innovations such as sustainable lifestyles (Liedtke et al., 2012). The aim of the course is for students to acquire the knowledge and skills to apply living lab and participative research methods. Students will design and carry out actual living lab research in groups, e.g., interviews, surveys or focus group method.

31938-01	Seminar: Qualitative Data Analysis in African Studies	3 KP
<b>Dozierende</b>	<b>Elisio Macamo</b>	
<b>Zeit und Ort</b>	Mi 10:15-12:00 Rheinsprung 21, Seminarraum 00.002	
<b>Datum</b>	04.10.2023	
<b>Intervall</b>	wöchentlich	
<b>Angebotsmuster</b>	Jedes Herbstsemester	
<b>Anbietende Organisationseinheit</b>	Fachbereich Soziologie	

<b>Module</b>	<p>Modul: Advances in Epidemiology, Statistics and Global &amp; Public Health (Masterstudium: Epidemiologie)</p> <p>Modul: Methoden der Gesellschaftswissenschaften (Masterstudium: European Global Studies)</p> <p>Modul: Vorbereitung Masterarbeit Gesellschaftswissenschaften (Masterstudium: Sustainable Development)</p> <p>Modul: Methoden der Near &amp; Middle Eastern Studies und der Gesellschaftswissenschaften (MSF - Near &amp; Middle Eastern Studies)</p> <p>Modul: Methoden der Soziologie und der Gesellschaftswissenschaften: qualitativ (MSF - Soziologie)</p> <p>Modul: Fields: Knowledge Production and Transfer (MSG - African Studies)</p> <p>Modul: Research Skills (MSG - African Studies)</p> <p>Modul: Methods for Analyzing Changing Societies (MSG - Changing Societies: Migration – Conflicts – Resources)</p> <p>Modul: Areas: Afrika (MSG - Europäische Geschichte in globaler Perspektive)</p>
<b>Lernziele</b>	<p>Students learn the methods of qualitative data analysis by apprehending the following skills:</p> <ul style="list-style-type: none"> <li>- Differentiate qualitative analysis procedures from quantitative analysis</li> <li>- Preparing empirical data for qualitative analysis</li> <li>- Identifying correct approaches in accordance to your empirical data and research question</li> <li>- Analyzing qualitative data</li> </ul> <p>Studierende werden mit den Methoden der qualitativen Analyse vertraut gemacht. Sie sollen die Fähigkeit erwerben:</p> <ul style="list-style-type: none"> <li>- Qualitative Analyseverfahren in ihrer Eigenart von quantitativen Analyseverfahren zu unterscheiden;</li> <li>- Empirische Daten für die qualitative Analyse vorzubereiten;</li> <li>- Passende Ansätze der qualitativen Datenanalyse für Datenmaterial und Fragestellung zu identifizieren;</li> <li>- Daten qualitativ auszuwerten.</li> </ul>
<b>Inhalt</b>	<p>The course introduces students to the tools and methodologies of qualitative research and its epistemological foundations. Participants will collect data, that is going to be used during the course to illustrate the different steps of analyzing qualitative data: compiling, disassembling and reassembling data; recombining data segments and finally the construction of typologies. A special emphasis is put on the techniques of transcribing, coding and categorizing, that are going to be applied for the purpose of practicing.</p> <p>Das Seminar wird in englischer Sprache durchgeführt. Es führt die Studierenden in die Erkenntnistheorie, Techniken und Verfahren der qualitativen Datenanalyse ein. Grundlage für das Seminar werden Daten bilden, die im Rahmen der Lehrveranstaltung erzeugt werden und dazu eingesetzt werden sollen, wichtige Schritte der qualitativen Auswertung zu veranschaulichen: die Aufbereitung von Daten; das Auseinandernehmen von Daten; die Zusammenführung von Datensegmenten und, schliesslich, die Typenbildung. Besonders betont werden Techniken des Transkribierens, Kodierens und der Kategorienbildung, die mit den im Rahmen der Veranstaltung erzeugten Daten Gegenstand von praktischen Übungen sein werden.</p>

48555-01	Seminar: Research Methods in Social and Political Science	3 KP
<b>Dozierende</b>	<b>Daniel Höhmann</b>	
<b>Zeit und Ort</b>	Do 14:15-15:45 Bernoullistrasse 14/16, Seminarraum 02.004	
<b>Datum</b>	21.09.2023	

<b>Intervall</b>	wöchentlich
<b>Angebotsmuster</b>	Jedes Herbstsemester
<b>Anbietende Organisationseinheit</b>	Fachbereich Politikwissenschaft
<b>Module</b>	Modul: Methoden der Gesellschaftswissenschaften (Masterstudium: European Global Studies) Modul: Vorbereitung Masterarbeit Gesellschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Theorien und Methodologien der Kulturanthropologie (MSF - Kulturanthropologie) Modul: Methoden der Near & Middle Eastern Studies und der Gesellschaftswissenschaften (MSF - Near & Middle Eastern Studies) Modul: Empirische Forschungsmethoden der Politikwissenschaft und der Gesellschaftswissenschaften (MSF - Politikwissenschaft) Modul: Methoden der Soziologie und der Gesellschaftswissenschaften: quantitativ (MSF - Soziologie) Modul: Fields: Knowledge Production and Transfer (MSG - African Studies) Modul: Research Skills (MSG - African Studies) Modul: Methods for Analyzing Changing Societies (MSG - Changing Societies: Migration – Conflicts – Resources)
<b>Lernziele</b>	<ul style="list-style-type: none"><li>- Learn the most important statistical estimation techniques for political scientists.</li><li>- Learn how to use model diagnostics to improve the model.</li><li>- Learn how to graphically represent the model to better convey the results to the audience during presentations or to readers in papers.</li></ul>
<b>Inhalt</b>	This course is designed for students interested in quantitative research methods and statistical analysis who already possess some basic knowledge about statistics and, if possible, regression analysis. In the first three weeks of the course, we revisit some of the fundamentals of statistical inference (such as the Central Limit Theorem, hypotheses tests, etc.) to offer students with limited statistical background the possibility to catch up with the required knowledge. Next, we cover the classical linear regression model, the assumptions we make when running such a model, and how violations of these assumptions can be detected and fixed. In the next section of the course we will discuss maximum likelihood estimation and then apply this technique to binary and categorical dependent variables (logit, probit, count models, etc.). The focus of the course is not on mathematics, but to give students an intuition of how the different modelling techniques actually work. At the end of the course participants should be able to apply the covered material to their own research. In addition, students should learn how to graphically present the results of the models for professional publications.

<b>Inhalt</b>	The tutorial will primarily serve to deepen the understanding of the principles and methods introduced during the course "Research Methods in Social and Political Science". In particular, the tutorials will give you a thorough introduction to R and illustrate how the different concepts and models introduced during the lecture can be implemented in R. Participation in the tutorials is not mandatory, but strongly recommended. Particularly, if this is your first statistics class or if you have no prior experience with R, please use this opportunity to ask questions and to practice what you have learned during the lecture. The lab sessions are very important for your personal progress and for your ability to complete the problem sets (and to work with R, as the first three weeks in the lab sessions are used to bring students up to speed with that software).	
<b>Leistungsüberprüfung</b>	Students studying political science are required to go to the lab sessions, which earns them an extra 2 credit points.

	<p><b>Dozierende</b> <b>Zeit und Ort</b> <b>Datum</b> <b>Intervall</b> <b>Angebotsmuster</b> <b>Anbietende Organisationseinheit</b> <b>Module</b></p> <p><b>Andreas Müller</b> Mi 10:15-11:45 Wirtschaftswissenschaftliche Fakultät, Seminarraum S15 HG.31 20.09.2023 wöchentlich Jedes Herbstsemester Wirtschaftswissenschaftliche Fakultät / WWZ Kernmodul: Core Areas in Monetary Economics (Masterstudium: International and Monetary Economics) Modul: Core Courses in International Business, Trade and the Environment (Masterstudium: Wirtschaftswissenschaften) Modul: Europäisierung und Globalisierung (Masterstudium: European Global Studies) Modul: Field Electives in Economics and Public Policy (Masterstudium: Economics and Public Policy) Modul: Methoden der Wirtschaftswissenschaften (Masterstudium: European Global Studies) Modul: Specific Electives in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Specific Electives in International Business, Trade and the Environment (Masterstudium: Wirtschaftswissenschaften) Modul: Vorbereitung Masterarbeit Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Vertiefungsmodul Global Europe: Handel und Unternehmen in der Globalisierung (Masterstudium: European Global Studies)</p>	
	<p><b>Lernziele</b></p> <p>The aim of the course is to familiarize students with the tools of international macroeconomics and finance and to apply these tools in macro-policy issues using the same analytical approach (microfoundation of the macroeconomy) as is employed in the research literature.</p> <p>Upon successful completion of the course students will have acquired an appreciation of the role of international capital and goods markets in the determination of economic outcomes. Specifically, they will be familiar with a theoretical framework through which they can interpret movements in the real and nominal exchange rate and its relationship to underlying shocks and other key macroeconomic variables in an open economy.</p> <p>Students will also be familiar with the effects of monetary and fiscal policy in an international setting. They will be able to critically assess the appropriateness of a particular policy in response to important events within the international financial system.</p>	
	<p><b>Inhalt</b></p> <p>The course builds on the macroeconomics, microeconomics and quantitative methods taught in the Bachelor program. It focuses on international macroeconomics, which we discuss both at an intuitive and technically advanced level (for instance, by solving a stochastic and dynamic decision problem of households and firms in a multi-period economy).</p> <p>In the first part, we develop a simple two-period model of an open economy that we will use throughout. With the appropriate variations to the benchmark theoretical framework, we will address central topics in the field, including the effect of aggregate uncertainty in open economies; the causes of the Great Moderation; the role of the public sector in the occurrence of twin deficits; inflationary finance; and balance of payment crisis.</p>	

In the second part, we will first study and document business-cycle facts from around the world. We then develop a fully dynamic open economy real-business-cycle-model. We will learn how this dynamic stochastic general equilibrium model can be approximated around the steady-state, solved and simulated on the computer.

Throughout the course, the predictions of the theoretical models are confronted with data. These tests are used to highlight the power of a particular theory in providing insight into a particular real-world problem, but also to mark its limits and to motivate critical thinking.

<b>Lernziele</b>	<p>This course has three goals. First, it offers students the opportunity to gain insights, based on real-world examples (mini-cases), on the wide spectrum of (possibly dysfunctional) incentives that various interest groups face in modern corporations. Second, it provides an overview of the problems and solutions addressed by academics and practitioners in the field of corporate governance. Third, the course presents and discusses a number of established and recent empirical papers with the aim of providing students with the necessary tools and skills to conduct own empirical analyses (for example in form of a master thesis) on corporate-governance topics.</p>
<b>Inhalt</b>	<p>Corporate Governance is a master level course that discusses problems and solutions related to the conflicts of interests (omni)present and intrinsically rooted in modern corporations.</p> <p>The practical importance of this course naturally arises from the fact that a large number of recent corporate scandals, defaults, and failures could have been likely prevented by enhanced governance schemes. Thus, the course will try to provide answers to the following question: What checks and balances are suitable for aligning the interests of managers with those of (controlling) shareholders without harming other interest groups, such as minority shareholders, debtholders, financial markets, employees, and society at large?</p>
<b>Literatur</b>	<p>There is no required textbook for this course. However, interested students can refer to the following book for an extensive and discursive coverage of classical corporate-governance topics:</p> <p>Corporate Governance by Robert A.G. Monks and Nell Minow, 5th Edition, John Wiley &amp; Sons, Ltd., 2011</p>

<b>Dozierende</b>	Andrea Ghisletta <b>Kurt Schmidheiny</b>
<b>Zeit und Ort</b>	Mo 10:15-12:00 Biozentrum, Hörsaal U1.131 Do 10:15-12:00 Pharmazentrum, Hörsaal 1
<b>Datum</b>	21.09.2023
<b>Intervall</b>	wöchentlich
<b>Angebotsmuster</b>	Jedes Herbstsemester
<b>Anbietende Organisationseinheit</b>	Wirtschaftswissenschaftliche Fakultät / WWZ
<b>Module</b>	Grundlagenmodul: Advanced Topics in Economics (Masterstudium: International and Monetary Economics) (Pflicht) Kernmodul: VWL (Masterstudium: Wirtschaftswissenschaften (Studienbeginn vor 01.08.2021)) (Pflicht) Modul: Field Electives in Finance and Money (Masterstudium: Finance and Money) Modul: Fundamentals in Business and Economics (Masterstudium: Wirtschaftswissenschaften) Modul: Fundamentals in Business and Technology (Masterstudium: Business and Technology) Modul: Fundamentals in Economics (Masterstudium: Economics and Public Policy) Modul: Kernbereich Wirtschaftswissenschaften (Masterstudium: Sustainable Development) Modul: Methoden der Wirtschaftswissenschaften (Masterstudium: European Global Studies) Modul: Vorbereitung Masterarbeit Wirtschaftswissenschaften (Masterstudium: Sustainable Development)
<b>Lernziele</b>	This course provides students with the basic econometric tools for cross-section and panel data. It is an applied course preparing students to both conduct own empirical research projects and assess empirical research papers. Each of the discussed tools will be implemented using standard statistical software (Stata or R) and real world data. Students will learn how to choose the adequate statistical method, discuss its identifying assumptions, correctly interpret its results and to translate them into economically meaningful answers. This course is supplemented by the course "Advanced Econometrics" (41957) which provides formal proofs and additional results.
<b>Inhalt</b>	Outline: 1. Causal effects and the logic of randomized experiments 2. Linear regression: Estimation, small and large sample properties, hypothesis testing, omitted variable bias, model selection, functional form, heteroscedasticity, autocorrelation, clustering 3. Instrumental variable estimation: Estimation, identification, weak instruments 4. Panel data: fixed effects, random effects 5. Maximum likelihood estimation 6. Binary choice: probit and logit
<b>Literatur</b>	Any textbook in econometrics covers the topics developed in this course. The technical level of this course will be closer to the introductory text- books. However, students with a strong mathematical background may find the advanced textbook more appropriate. The two companions are not self-contained textbooks but useful to deepen the intuitive understanding. Introductory textbook: - Stock, James H. and Mark W. Watson (2020), Introduction to Econometrics, 4th Global Edition, Pearson. Advanced textbooks: - Cameron, A. Colin and Pravin K. Trivedi (2005), Microeconometrics: Methods and Applications, Cambridge University Press. - Davidson, Russell and James G. MacKinnon (2004), Econometric Theory and Methods, Oxford University Press. - Hayashi, Fumio (2000), Econometrics, Princeton University Press. - Wooldridge, Jeffrey M. (2010), Econometric Analysis of Cross Section and Panel Data, 2nd ed., MIT Press. Companion textbooks: - Angrist, Joshua D. and Jorn-Steffen Pischke (2009), Mostly Harmless Econometrics: An Empiricist's Companion, Princeton University Press. <a href="https://www.schmidheiny.name/teaching/unibas/econometrics/">https://www.schmidheiny.name/teaching/unibas/econometrics/</a>

<b>Hinweise zur Leistungsüberprüfung</b>	There will be a final exam and eight online tests. The online tests will be graded on a pass / fail basis. You must pass at least five out of the eight online tests in order to be allowed to the final exam. If you do not fulfill this requirement, you will be excluded from the final exam and deregistered from the course in MONA. The grade will solely be determined by the final exam.

written exam: 05.01.24; 17:00-18:30. DSBG Sporthalle: A-Z.

For this exam you will still receive additional information by email. You would have to be on site at least 30 minutes before the exam starts.

The addresses of the examination rooms can be found here: <https://www.unibas.ch/de/studium/pruefungen/vorlesungs-und-pruefungsraeume/>

You can still withdraw from the examination by submitting a completed, signed form to our office from 17.10.23 until 27.10.23 / 12:00 o'clock. The deregistration form and the mail address can be found on the homepage of the Dean of Studies Office: <https://www.unibas.ch/en/studies/examinations/de/-/registration-of-examinations/>  
Prior to 16.10.23, please deregister only in the Online Services.

repeat exam: 05.02.24; 12:30-14:00. You will receive the rooms for the repeat exam by mail.

#### IMPORTANT:

For courses with a main lecture exam, a repeat exam is offered in addition to the regular examination date. This repeat examination can only be taken if the student has taken part in and failed the regular examination (grade < 4.0) see study guide of our master programs by December 13, 2021: Paragraph 4.13.4.1.

#### Bemerkungen

Applies to everyone: Enrolment = Registration for the course and the exam!

Students who plan to take other courses in econometrics should also follow the course "Advanced Econometrics" (41957) along with "Econometrics" (12036).

Students studying under the expiring study regulation will be admitted to the exam, even if the system should give the feedback that this is no longer possible.
